

Thank you!

It is with great appreciation that we report on the activities of the American Academy of Pediatrics (AAP) Friends of Children Fund in celebration of its 15th anniversary. We are grateful to all members and friends of the AAP who have been loyal donors throughout the years and have made it possible for the AAP to continue to meet the needs of children and advance pediatrics through their support of education, research, service, and advocacy programs.

Unrestricted donations have provided more than \$3 million for programs and activities. Thank you for making the AAP a home for your charitable contributions and continuing to help us fulfill our mission.

Listed are the grants made possible through donations to the AAP Friends of Children Fund and the year in which they were given.
