### IMPORTANT NOTICE AND ANTITRUST WARNING

The data in this study reflects aggregated historical information. It is designed to assist both providers and purchasers of health care services in making independent decisions regarding practice management and the provision and purchase of health care services. This study is being offered for these informational purposes only. It does not reflect the official position of the American Academy of Pediatrics on issues relating to costs, reimbursement or other fee-related information. Study data must not be used for the purpose of fixing prices, fees or other charges, boycotting providers or purchasers of health care services, or to limit competition or restrain trade in any other manner. This or any other improper use of the study data is prohibited by federal and state antitrust laws and is subject to severe penalties. The American Academy of Pediatrics recommends that the user consult with competent legal counsel about any questions the user has regarding the use of the study data.

Medicaid payments were provided by states in response to the Medicaid Reimbursement Survey conducted by the American Academy of Pediatrics for 2004-2005. Medicare payments represent geographically adjusted 2004 rates published by CMS. Commercial payments, by region, are based on median fee-for-service payment according to the MarketScan database published by Medstat for 2004. MarketScan consists of mainly claims submitted to self-insured plans by large employers in 50 states and DC.

(3) Unless otherwise noted, the highest non-facility Medicaid payment rate is presented in this report when multiple rates are used by the state. (4) Medicare rates are GPCI-adjusted for geographic variation in medical care cost. Medicare rates may vary by region in states with multiple Medicare carriers. Fees are reported as ranges in states where Medicare rates vary by region or carrier.

**Abbreviations:**

**BO:** Bundled with other services, i.e., Payment for covered services is always bundled into payment for other services not specified. If these services are covered, payment for them is subsumed by the payment for the services to which they are incident.

**BR:** By Report (same as **MP:** Manually priced) i.e., Carrier will establish payment amounts for these services, generally on a case-by-case basis following review of documentation, such as an operative report.

**LFS:** National limit amount per Clinical and Diagnostic Lab Fee Schedule.

**na:** Unavailable.

**NA:** Not applicable.

**NC:** Not covered.

**NIS:** RVUs for code not included in RBRVS schedule.

**NL:** Information not provided by state, nor found on Medicaid fee schedule posted on state's web site.

**NP:** Information not provided by state.

**OM:** Other method(s).

**SSV:** State-supplied vaccine. MNVP: Minnesota's Vaccine Program.

**VAFAC:** Vaccine Assurance for All Children Program of South Carolina.

**VFC:** Vaccine for Children program.
