

Medicaid Reimbursement Survey, 2007/08

Texas

American Academy of Pediatrics

DEDICATED TO THE HEALTH OF ALL CHILDREN™

Texas - 2007/08 AAP Medicaid Reimbursement Survey

Survey Summary :

As part of its effort to monitor the impact of the Medicaid program on pediatrics, the American Academy of Pediatrics (AAP) conducts its Medicaid Reimbursement Survey periodically.

The Survey, which collects state-administered fee-for-service program payment rates for most commonly reported pediatric Current Procedural Terminology/CPT® codes and dental codes, was most recently mailed to State Medicaid Directors in the 50 states and the District of Columbia during July 2007 to request payment rates effective July 1, 2007, the beginning of the 2007-08 fiscal year for most states.

47 states and the District of Columbia returned this survey. Data for New York and Hawaii are based on a search of the two states' Medicaid websites by AAP staff. Tennessee, which does not have a state-administered fee-for-service Medicaid program, is not included in this report series.

This and earlier AAP Medicaid Reimbursement Survey reports can be found at URL: <http://www.aap.org/research/medreimintro.htm>

Caveats and Notes :

Medicaid fees shown in this report represent fee-for-service payments reported by states for state-administered Medicaid programs only. Nationally, the majority of children enrolled in Medicaid programs are enrolled in managed care plans, which may or may not benchmark provider payment rates to fees shown in this report.

Attempts by the AAP to collect plan-to-provider payment rates in Medicaid managed care plans have been unsuccessful since such information has typically been classified as "confidential and proprietary" by the states and the plans with which they contract. Depending on managed care penetration levels, the impact of state-administered fee-for-service Medicaid payment rates varies by state.

43.6% of children enrolled in TX Medicaid were in prepaid plans according to FY2005 CMS data - state-administered FFS rates shown in this report may apply to certain carved-out services only for these children. State monitored both FFS and capitated plan-to-provider payment rates in its Medicaid managed care plan(s) according to its reply to the 2007/8 AAP Medicaid Reimbursement Survey.

Medicare rates in this report are (a) based on non-facility Medicare payment published by the Center for Medicare and Medicaid Services for 2007, and (b) adjusted with Geographic Practice Cost Index (GPCIs) published by CMS. Certain codes are assigned RVUs but not covered by Medicare.

CPT® is a trademark of the American Medical Association.

Dental codes (CDT Codes) are copyright 2006 American Dental Association. Reprinted with permission.

Texas - 2007/08 AAP Medicaid Reimbursement Survey

Abbreviations :

- BC :** Billed charges
- BI / BR / PR :** By invoice/ by report/ per review, i.e., Carrier will establish payment amounts for these services on a case-by-case basis following review of documentation, such as an operative report.
- BO :** Bundled with other services, i.e., Payment for covered services is always bundled into payment for other services not specified. If these services are covered, payment for them is subsumed by the payment for the services to which they are incident.
- FFS :** Discounted fee-for-service
- FP :** Facility payment
- MP :** Manually priced, i.e., Carrier will establish payment amounts for these services, generally on a case-by-case basis following review of documentation, such as an operative report.
- NA :** Not applicable
- NC :** Not covered
- NL :** Information not found on state Medicaid website or physician fee schedule
- NP :** Information not provided by state in returned AAP survey
- NIS :** RVUs not included in RBRVS or Clinical Diagnostic Lab Fee Schedule
- LFS :** National limit amount per Clinical Diagnostic Lab Fee Schedule
- OM :** Other method used
- RBRVS:** Resource-Based Relative Value Scale, the physician payment schedule for Medicare
- RNE :** Rate not established
- RVU(s) :** Relative Value Unit(s), the numeric value of the resources needed to provide services according to the Resource-Based Relative Value Scale
- VFC :** Vaccines for Children Program. Providers are typically paid a vaccine administration fee for administering vaccines made available through VFC programs.
- MRC :** Maximum regional charge, the maximum amount a provider may charge for the administration of qualified pediatric vaccines to federally vaccine-eligible children under the VFC Program. States with universal purchase programs may establish maximum charges that differ from this level. MRCs were established by federal regulation published October 3, 1994, can be found online at: <http://www.cdc.gov/vaccines/programs/vfc/fee-fedreg.htm>, and have not been updated since initial publication of this regulation.

Contact Information :

Contact Suk-fong Tang, Department of Practice, for questions about this report. Contact Dan Walter, Division of State Government Affairs, for Medicaid questions and advocacy advice. Contact Elizabeth Sobczyk, Division of Pediatric Practice, for pediatric immunization questions and advocacy advice. Contact the Division of Health Care Finance and Quality Improvement at dhcfqi@aap.org for information on child health financing or RBRVS.
