

Medicaid (Title XIX and Title XXI)

STATE REPORTS – FY 2005

RHODE ISLAND

American Academy of Pediatrics

DEDICATED TO THE HEALTH OF ALL CHILDREN™

General Information about CMS/MSIS2082, main data source of this report:

(Based on CMS description of MSIS data)

CMS/MSIS2082 data represent people on the Medicaid rolls, recipients of Medicaid services and the payments for claims adjudicated during the year. The data reflected bills adjudicated, or processed, during the year rather than the services used during the year. States submit individual eligibility and claims data tapes to CMS on a quarterly basis via MSIS (the Medicaid Statistical Information System).

CMS started reporting Title XXI funded Medicaid expansion enrollment and expenditures data on MSIS2082 reports in FFY1999. Use caution when comparing FFY1999 and later Medicaid State Reports to prior years.

Caveats:

The general quality of the data is only as reliable as the data submitted to CMS by States. Federal edits are performed to validate individual data elements, check consistency between data elements and verify reasonableness of distributions between reporting periods.

Payments, or vendor payments, from MSIS include dollars for all claims adjudicated during the fiscal year. Vendor payments reported include capitated payments for managed care plans. MSIS payments do not agree with the CMS-64 financial figures because they do not include payments made outside the claims processing system (e.g., payments made to disproportionate share (DSH) hospitals) and differences in accounting time lags.

MSIS slightly understates reporting for children under age 1. Many children born in August and September are omitted from MSIS because these newborns may not be added to the State eligibility file until after the end of the fiscal year.

State-only SCHIP enrollees are excluded from the tables. There are no Medicaid dollars associated with these individuals while they are in the separate SCHIP program.

Refer to CMS document titled “**MSIS State Anomalies/Issues: All States**” (accessible from URL: http://www.cms.hhs.gov/MedicaidDataSourcesGenInfo/02_MSISData.asp) for details on state specific data anomalies and other data issues.
