Council on Community Pediatrics

October 2007

Pilot Test Results – Summer 2007

In the summer of 2007, the Council on Community Pediatrics conducted an online pilot test with the members of the Council on Community Pediatrics and the District CATCH Facilitators. The results of the pilot test can be found below. The range for each question varied between 54-69 respondents. Respondents use a 1 to 5 scale to rate where they consider to be for each component (1 is not at all; 5 is to a high degree).

Average Scores

Key Factor #1: Practices with a population-based approach.

Theme 1.1: Uses a practice database to develop a practice profile.

Component 1: 2.93

Component 2: 2.84

Component 3: 2.18

Theme 1.2: Identifies community needs.

Component 1: 3.70

Component 2: 3.82

Component 3: 3.27

Theme 1.3: Makes care and practice management decisions using community data.

Component 1: 3.29

Component 2: 3.42

Component 3: 3.23

Key Factor #2: Communicates and collaborates with external key stakeholders/partners.

Theme 2.1: Communicates and collaborates with public health to link primary care practices to public health tools.

Component 1: 3.33

Component 2: 3.58

Component 3: 3.20

Theme 2.2: Communicates and collaborates with community members and community partners.

Component 1: 3.05

Component 2: 2.94

Component 3: 2.64

Key Factor #3: Considers the social determinants of child health.

Theme 3.1: Understands and incorporates in practice the cultural forces that affect child health.

Component 1: 3.32

Component 2: 3.45

Component 3: 3.19

Theme 3.2: Works collaboratively with patients and their families to understand and incorporate into care and practice management decisions the family-related determinants affecting child health.

Component 1: 3.63

Component 2: 2.75

Component 3: 3.23

Theme 3.3: Works collaboratively with patients and community partners to understand and incorporate into care and practice management decisions the environmental and socio-economic determinants affecting child health.

Component 1: 3.42

Component 2: 2.60

Component 3: 3.17

Key Factor #4: Uses community resources to enhance children's care.

Theme 4.1: Maintains and uses community resources.

Component 1: 3.70
