

SOMSRFT Listservs: What They Are & How to Use Them

The listservs are open listservs that provide each of the DCs & ADCs with a means of communicating with the program delegates and the residents within their district. By open, I mean that anyone that is a member listed on that listserv can respond to the entire group. You may use these listservs to send out information on meetings, current district newsletters, etc.

The following listservs exist for you to use:
