

NEW From the American Academy of Pediatrics **2010 Pediatric Coding Resources—Promoting Pediatric Coding Excellence**

[AAP Pediatric Coding Newsletter™](#)—Stay current and compliant with the official coding newsletter of the AAP!

This monthly coding advisory features pediatric-specific solutions to help you maximize payment, remain compliant, increase your coding accuracy, and reduce payment delays and claim denials. Included in this annual subscription product is **print and complete online access** to broad coverage of coding for pediatric primary care and subspecialty services. Subscribers have priority access to the **AAP Coding Hotline**—this resource is staffed by certified pediatric coders offering rapid, reliable responses to your toughest coding questions. Visit <http://coding.aap.org> to view a dynamic site demonstration and preview a complete issue.

[Coding for Pediatrics](#)—New 15th edition of the #1 pediatric coding and billing resource!

For beginners and advanced coders alike, this is the first place to look for pediatric-specific, AAP-endorsed, peer-reviewed coding solutions...all new and updated *CPT* and *ICD-9-CM* pediatric codes...and much more. Turn here for pediatric-specific coding guidance, including new continuums for hospital inpatients with diagnosis of asthma and rule-out of sepsis, new clinical vignettes to bring complex coding issues to life, updated self-study guide at the end of each chapter to evaluate your coding knowledge and skills, updated Coding Toolkit, and much more.

[2010 Pediatric ICD-9-CM Coding Pocket Guide](#)—NEW convenient pocket-sized format!

Streamline pediatric diagnosis coding with this newly revised and redesigned quick reference. Formatted as a handy spiral-bound book, it slips right into your laboratory coat pocket and is always available for ready access. All 2010 changes to *ICD-9-CM* are indexed by diagnosis and organized alphabetically for easy code identification. Also included is a glossary of key medical abbreviations.

[Quick Reference Card for Pediatric Coding and Documentation](#)—NEW 5th Edition!

Put the most common pediatric *CPT* codes at your fingertips—including all new and revised codes for 2010. Laminated for extra durability in a convenient 8½" x 11" format.

[Quick Reference Guide to Neonatal Coding and Documentation](#)—NEW 2010 Edition!

Over the past decade, there has been an effort to simplify coding for neonatal services. This resource provides the information you need to code correctly and most effectively for your practice.
