AAP TOBACCO CONSORTIUM BACKGROUND

The AAP Tobacco Consortium consists of junior and senior researchers committed to addressing tobacco as a child and adolescent health issue. The Consortium explores cutting-edge research and literature synthesis using a participatory agenda-setting process among its members. The Consortium agenda includes youth tobacco prevention and control, children's exposure to secondhand smoke, social policy, and international issues. Members are nominated for inclusion in the Consortium and approved by AAP Executive Committee.

AAP TOBACCO CONSORTIUM MEMBERSHIP
