Here's what NRP Instructors are saying about the 7th edition:

"The new book is fantastic, pictures and explanations are well done."
"I think the 7th edition text is excellent."
"I do like the 7th edition manual. It is very well organized and easy to read/reference."

The Neonatal Resuscitation Program (NRP®) course conveys an evidence-based approach to care of the newborn at birth and facilitates effective team-based care for health care professionals who care for newborns at the time of delivery.

NRP uses a blended learning approach, which includes online testing, online case-based simulations, and hands-on, case-based simulation and debriefing that focus on critical leadership, communication, and teamwork skills.

Included in the 7th Edition

- The AAP/AHA Guidelines for Cardiopulmonary Resuscitation and Emergency Cardiovascular Care of the Neonate
- Two new chapters added—preparing for resuscitation and covering post-resuscitation care
- 140 full-color photographs
