Anxiety Coding Fact Sheet for Primary Care Pediatrics

Initial assessment usually involves a lot of time determining the differential diagnosis, a diagnostic plan, and potential treatment options. Therefore, most pediatricians will report either an office/outpatient evaluation and management (E/M) code using time as the key factor or a consultation code for the initial assessment:

Physician Evaluation & Management Services

- **99201** Office or other outpatient visit, new patient; self limited or minor problem, 10 min.
- **99202** low to moderate severity problem, 20 min.
- **99203** moderate severity problem, 30 min.
- **99204** moderate to high severity problem, 45 min.
- **99205** high severity problem, 60 min.

A new patient is one who has not received any professional face-to-face services rendered by physicians and other qualified health care professionals who may report evaluation and management services reported by a specific CPT code(s) from the physician/qualified health care professional or another physician/qualified health care professional of the exact same specialty and subspecialty who belongs to the same group practice, within the past three years.

- **99211** Office or other outpatient visit, established patient; minimal problem, 5 min.
- **99212** self limited or minor problem, 10 min.
- **99213** low to moderate severity problem, 15 min.
- **99214** moderate severity problem, 25 min.
- **99215** moderate to high severity problem, 40 min.

- **99241** Office or other outpatient consultation, new or established patient; self-limited or minor problem, 15 min.
- **99242** low severity problem, 30 min.
- **99243** moderate severity problem, 45 min.
- **99244** moderate to high severity problem, 60 min.
- **99245** moderate to high severity problem, 80 min.

NOTE: Use of these codes (99241-99245) requires the following:

a) Written or verbal request for consultation is documented in the patient chart;
b) Consultant's opinion as well as any services ordered or performed are documented in the patient chart; and
c) Consultant's opinion and any services that are performed are prepared in a written report, which is sent to the requesting physician or other appropriate source (Note: Patients/Parents may not initiate a consultation)
d) For more information on consultation code changes for 2010 see: http://www.aap.org/moc/loadsecure.cfm/reimburse/PositiononMedicareConsultationPolicy.doc

Reporting E/M services using “Time”

- When counseling or coordination of care dominates (more than 50%) the physician/patient or family encounter (face-to-face time in the office or other outpatient setting or floor/unit time in the hospital or nursing facility), then **time shall** be considered the key or controlling factor to qualify for a particular level of E/M services.

- This includes time spent with parties who have assumed responsibility for the care of the patient or decision making whether or not they are family members (eg, foster parents, person acting in loco parentis, legal guardian). The extent of counseling and/or coordination of care must be documented in the medical record.

+ Codes are add-on codes, meaning they are reported separately in addition to the appropriate code for the service provided

* Indicates CPT allows as a telemedicine service

• For coding purposes, face-to-face time for these services is defined as only that time that the physician spends face-to-face with the patient and/or family. This includes the time in which the physician performs such tasks as obtaining a history, performing an examination, and counseling the patient.

• When codes are ranked in sequential typical times (such as for the office-based E/M services or consultation codes) and the actual time is between 2 typical times, the code with the typical time closest to the actual time is used.

• Prolonged services can only be added to codes with listed typical times such as the ones listed above. In order to report physician or other qualified health care professional prolonged services the reporting provider must spend a minimum of 30 minutes beyond the typical time listed in the code level being reported. When reporting outpatient prolonged services only count face-to-face time with the reporting provider. When reporting inpatient or observation prolonged services you can count face-to-face time, as well as unit/floor time spent on the patient's care. However, if the reporting provider is reporting their service based on time (ie, counseling/coordinating care dominate) and not key components, then prolonged services cannot be reported unless the provider reaches 30 minutes beyond the listed typical time in the highest code in the set (eg, 99205, 99226, 99223). It is important that time is clearly noted in the patient's chart. For clinical staff prolonged services, refer to codes 99415-99416 below.

★+99354 Prolonged services in office or other outpatient setting, with direct patient contact; first hour (use in conjunction with time-based codes 99201-99215, 99241-99245, 99301-99350)
★+99355 each additional 30 min. (use in conjunction with 99354)

• Used when a physician or other qualified health care professional provides prolonged services beyond the usual service (ie, beyond the typical time).
• Time spent does not have to be continuous.
• Prolonged service of less than 15 minutes beyond the first hour or less than 15 minutes beyond the final 30 minutes is not reported separately.

Physician or Other Qualified Healthcare Professional Non-Face-to-Face Services
*For more information on reporting these and other non-face-to-face services see the Care Management fact sheet.

Chronic Care Management
Codes are selected based on the amount of time spent by the physician or qualified health care professional providing care coordination activities. CPT clearly defines what is defined as care coordination activities. In order to report chronic care or complex chronic care management codes, you must
1. provide 24/7 access to physicians or other qualified health care professionals or clinical staff;
2. use a standardized methodology to identify patients who require chronic complex care coordination services
3. have an internal care coordination process/function whereby a patient identified as meeting the requirements for these services starts receiving them in a timely manner
4. use a form and format in the medical record that is standardized within the practice
5. be able to engage and educate patients and caregivers as well as coordinate care among all service professionals, as appropriate for each patient.

99491 Chronic care management services, provided personally by a physician or other qualified health care professional, at least 30 minutes of physician or other qualified health care professional time, per calendar month, with the following required elements:
• Multiple (two or more) chronic conditions expected to last at least 12 months, or until the death of the patient;
• Chronic conditions place the patient at significant risk of death, acute exacerbation or decompensation, or functional decline;

+ Codes are add-on codes, meaning they are reported separately in addition to the appropriate code for the service provided
★ Indicates CPT allows as a telemedicine service

Codes are add-on codes, meaning they are reported separately in addition to the appropriate code for the service provided

Online Digital Evaluation and Management Service

These are patient-initiated services with physicians or other qualified health care professionals (QHPs) who are allowed to report E/M services. Online digital E/M services require physician or other QHP's evaluation, assessment, and management of the patient and are not for the nonevaluative electronic communication of test results, scheduling of appointments, or other communication that does not include E/M. These are more appropriate when dealing with a more minor issue or during a month when you are not coding or providing more robust care thus this time would be reported under another service like care management.

- Patient must be established (problem can be new)
- Services must be initiated through Health Insurance Portability and Accountability Act (HIPAA)-compliant secure platforms
- Reported once for the physician's or other QHP's (including all in the same group practice) cumulative time during a seven-day period
- The seven-day period begins with the physician's or other QHP's initial, personal review of the patient-generated inquiry.
- Online digital E/M services require permanent documentation storage (electronic or hard copy) of the encounter.
- Do not report these codes separately if the patient is seen within 7 days of the service for an issue related to the encounter.
- Your date of service will be the date the initiation of the e-visit began or the range of dates it took place because this service is cumulative time over 7 days.

99421 Online digital evaluation and management service, for an established patient, for up to 7 days, cumulative time during the 7 days; 5-10 minutes
99422 11-20 minutes
99423 21 or more minutes

Telephone Care Services

Telephone care must be initiated by the parent, patient or the guardian. The telephone call cannot be related to an E/M service within the previous 7 days nor can they lead to an appointment within the next 24 hours or soonest available. This is not telehealth or telemedicine. Your date of service will be date the phone call takes place.

99441 Telephone evaluation and management to patient, parent or guardian not originating from a related E/M service within the previous 7 days nor leading to an E/M service or procedure within the next 24 hours or soonest available appointment; 5-10 minutes of medical discussion
99442 11-20 minutes of medical discussion
99443 21-30 minutes of medical discussion

Medical Team Conference

99367 Medical team conference by physician with interdisciplinary team of healthcare professionals, patient and/or family not present, 30 minutes or more

+ Codes are add-on codes, meaning they are reported separately in addition to the appropriate code for the service provided
★ Indicates CPT allows as a telem medicine service

Care Plan Oversight

<table>
<thead>
<tr>
<th>Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>99339</td>
<td>Care Plan Oversight - Individual physician supervision of a patient (patient not present) in home, domiciliary or rest home (e.g., assisted living facility) requiring complex and multidisciplinary care modalities involving regular physician development and/or revision of care plans, review of subsequent reports of patient status, review of related laboratory and other studies, communication (including telephone calls) for purposes of assessment or care decisions with health care professional(s), family member(s), surrogate decision maker(s) (e.g., legal guardian) and/or key caregiver(s) involved in patient’s care, integration of new information into the medical treatment plan and/or adjustment of medical therapy, within a calendar month; 15-29 minutes</td>
</tr>
</tbody>
</table>

Prolonged Services

<table>
<thead>
<tr>
<th>Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>99358</td>
<td>Prolonged services without direct patient contact; first hour +99359 each additional 30 min. (+ designated add-on code, use in conjunction with 99358)</td>
</tr>
</tbody>
</table>

[B]Physician-Directed Non–Face-to-Face Services

Behavioral health integration care management, chronic care management, psychiatric collaborative care management services and transition care management are reported under the directing physician or other qualified health care professional, however, the time requirement can be met by clinical staff working under the direction of the reporting physician or other qualified health care professional. See each code set for details.

Behavioral Health Integration Care Management

<table>
<thead>
<tr>
<th>Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>99484</td>
<td>Care management services for behavioral health conditions, at least 20 minutes of clinical staff time, directed by a physician or other qualified health care professional, per calendar month, with the following required elements: initial assessment or follow-up monitoring, including the use of applicable validated rating scales; behavioral health care planning in relation to behavioral/psychiatric health problems, including revision for patients who are not progressing or whose status changes; facilitating and coordinating treatment such as psychotherapy, pharmacotherapy, counseling and/or psychiatric consultation; and continuity of care with a designated member of the care team.</td>
</tr>
</tbody>
</table>

Tips:

- Reported by the supervising physician or other qualified health care professional.
- The assessment and treatment plan is not required to be comprehensive and the office/practice is not required to have all the functions of chronic care management (99487, 99489, 99490).
- May be used in any outpatient setting, as long as the reporting professional has an ongoing relationship with the patient and clinical staff and as long as the clinical staff is available for face-to-face services with the patient.
- Behavioral integration care management (99484) and chronic care management services may be reported by the same professional in the same month, as long as distinct care management services are performed.

Psychiatric Collaborative Care Management Services
99492 Initial psychiatric collaborative care management, first 70 minutes in the first calendar month of behavioral health care manager activities, in consultation with a psychiatric consultant, and directed by the treating physician or other qualified health care professional, with the following required elements:
- outreach to and engagement in treatment of a patient directed by the treating physician or other qualified health care professional;
- initial assessment of the patient, including administration of validated rating scales, with the development of an individualized treatment plan;
- review by the psychiatric consultant with modifications of the plan if recommended;
- entering patient in a registry and tracking patient follow-up and progress using the registry, with appropriate documentation, and participation in weekly caseload consultation with the psychiatric consultant; and
- provision of brief interventions using evidence-based techniques such as behavioral activation, motivational interviewing, and other focused treatment strategies.

99493 Subsequent psychiatric collaborative care management, first 60 minutes in a subsequent month of behavioral health care manager activities, in consultation with a psychiatric consultant, and directed by the treating physician or other qualified health care professional, with the following required elements:
- tracking patient follow-up and progress using the registry, with appropriate documentation;
- participation in weekly caseload consultation with the psychiatric consultant;
- ongoing collaboration with and coordination of the patient's mental health care with the treating physician or other qualified health care professional and any other treating mental health providers;
- additional review of progress and recommendations for changes in treatment, as indicated, including medications, based on recommendations provided by the psychiatric consultant;
- provision of brief interventions using evidence-based techniques such as behavioral activation, motivational interviewing, and other focused treatment strategies;
- monitoring of patient outcomes using validated rating scales; and
- relapse prevention planning with patients as they achieve remission of symptoms and/or other treatment goals and are prepared for discharge from active treatment.

99494 Initial or subsequent psychiatric collaborative care management, each additional 30 minutes in a calendar month of behavioral health care manager activities, in consultation with a psychiatric consultant, and directed by the treating physician or other qualified health care professional (List separately in addition to code for primary procedure)

**Care Management Services:**
Codes are selected based on the amount of time spent by clinical staff providing care coordination activities. CPT clearly defines what is defined as care coordination activities. In order to report chronic care or complex chronic care management codes, you must

1. provide 24/7 access to physicians or other qualified health care professionals or clinical staff;
2. use a standardized methodology to identify patients who require chronic complex care coordination services
3. have an internal care coordination process/function whereby a patient identified as meeting the requirements for these services starts receiving them in a timely manner
4. use a form and format in the medical record that is standardized within the practice
5. be able to engage and educate patients and caregivers as well as coordinate care among all service professionals, as appropriate for each patient.

99490 Chronic care management services, at least 20 minutes of clinical staff time directed by a physician or other qualified health care professional, per calendar month, with the following required elements:
- multiple (two or more) chronic conditions expected to last at least 12 months, or until the death of the patient;
Codes are add-on codes, meaning they are reported separately in addition to the appropriate code for the service provided.

Indicates CPT allows as a telemedicine service

+ Codes are add-on codes, meaning they are reported separately in addition to the appropriate code for the service provided

★ Indicates CPT allows as a telemedicine service

Do not report **99490** for chronic care management services that do not take a minimum of 20 minutes in a calendar month.

**99487**  Complex chronic care management services;
- multiple (two or more) chronic conditions expected to last at least 12 months, or until the death of the patient;
- chronic conditions place the patient at significant risk of death, acute exacerbation/decompensation, or functional decline;
- establishment or substantial revision of a comprehensive care plan;
- moderate or high complexity medical decision making;
- 60 minutes of clinical staff time directed by a physician or other qualified health care professional, per calendar month.

Do not report **99487** for chronic care management services that do not take a minimum of 60 minutes in a calendar month.

**+99489** each additional 30 minutes of clinical staff time directed by a physician or other qualified health care professional, per calendar month

Complex chronic care management is reported by the physician or qualified health care professional who provides or oversees the management and coordination of all of the medical, psychosocial, and daily living needs of a patient with a chronic medical condition. Typical pediatric patients

1. receive three or more therapeutic interventions (eg, medications, nutritional support, respiratory therapy)
2. have two or more chronic continuous or episodic health conditions expected to last at least 12 months (or until death of the patient) and places the patient at significant risk of death, acute exacerbation or decompensation, or functional decline
3. commonly require the coordination of a number of specialties and services.

**Transition Care Management**

★**99495** Transitional care management (TCM) services with the following required elements:
- Communication (direct contact, telephone, electronic) with the patient and/or caregiver within 2 business days of discharge
- Medical decision-making of at least moderate complexity during the service period
- Face-to-face visit, within 14 calendar days of discharge

★**99496** Transitional care management services with the following required elements:
- Communication (direct contact, telephone, electronic) with the patient and/or caregiver within 2 business days of discharge
- Medical decision-making of high complexity during the service period
- Face-to-face visit, within 7 calendar days of discharge

• chronic conditions place the patient at significant risk of death, acute exacerbation/decompensation, or functional decline;
• comprehensive care plan established, implemented, revised, or monitored.

Do not report **99490** for chronic care management services that do not take a minimum of 20 minutes in a calendar month.
These services are for a patient whose medical and/or psychosocial problems require moderate or high complexity medical decision-making during transitions in care from an inpatient hospital setting (including acute hospital, rehabilitation hospital, long-term acute care hospital), partial hospital, observation status in a hospital, or skilled nursing facility/nursing facility to the patient's community setting (home, domiciliary, rest home, or assisted living). TCM commences on the date of discharge and continues for the next 29 days and requires a face-to-face visit, initial patient contact, and medication reconciliation within specified timeframes. Any additional E/M services provided after the initial may be reported separately.

Refer to the CPT manual for complete details on reporting care management and TCM services.

**Psychiatric Diagnostic or Evaluative Interview Procedures**

★★90791 Psychiatric diagnostic interview examination evaluation

★★90792 Psychiatric diagnostic evaluation with medical services

**Psychotherapy**

★★90832 Psychotherapy, 30 min with patient and/or family;

★★+90833 with medical evaluation and management (Use in conjunction with 99201–99255, 99304–99337, 99341–99350)

★★90834 Psychotherapy, 45 min with patient and/or family;

★★+90836 with medical evaluation and management services (Use in conjunction with 99201–99255, 99304–99337, 99341–99350)

★★90837 Psychotherapy, 60 min with patient and/or family;

★★+90838 with medical evaluation and management services (Use in conjunction with 99201–99255, 99304–99337, 99341–99350)

★★+90785 Interactive complexity (Use in conjunction with codes for diagnostic psychiatric evaluation [90791, 90792], psychotherapy [90832, 90834, 90837], psychotherapy when performed with an evaluation and management service [90833, 90836, 90838, 99201–99255, 99304–99337, 99341–99350], and group psychotherapy [90853])

• Refers to specific communication factors that complicate the delivery of a psychiatric procedure. Common factors include more difficult communication with discordant or emotional family members and engagement of young and verbally undeveloped or impaired patients. Typical encounters include:
  o Patients who have other individuals legally responsible for their care
  o Patients who request others to be present or involved in their care such as translators, interpreters or additional family members
  o Patients who require the involvement of other third parties such as child welfare agencies, schools or probation officers

★★90846 Family psychotherapy (without patient present), 50 min

★★90847 Family psychotherapy (conjoint psychotherapy) (with patient present), 50 min

90849 Multiple-family group psychotherapy

90853 Group psychotherapy (other than of a multiple family group)

• For interactive group psychotherapy use code 90785 in conjunction with code 90853

**Other Psychiatric Services/Procedures**

+ Codes are *add-on* codes, meaning they are reported separately in addition to the appropriate code for the service provided

★ Indicates CPT allows as a telemedicine service
Codes are add-on codes, meaning they are reported separately in addition to the appropriate code for the service provided.

Indicates CPT allows as a telemedicine service.

Pharmacologic management, including prescription and review of medication, when performed with psychotherapy services (Use in conjunction with 90832, 90834, 90837)

- For pharmacologic management with psychotherapy services performed by a physician or other qualified health care professional who may report E/M codes, use the appropriate E/M codes 99201-99255, 99281-99285, 99304-99337, 99341-99350 and the appropriate psychotherapy with E/M service 90833, 90836, 90838.

Psychiatric evaluation of hospital records, other psychiatric reports, and psychometric and/or projective tests, and other accumulated data for medical diagnostic purposes

Interpretation or explanation of results of psychiatric, other medical exams, or other accumulated data to family or other responsible persons, or advising them how to assist patient

Preparation of reports on patient's psychiatric status, history, treatment, or progress (other than for legal or consultative purposes) for other individuals, agencies, or insurance carriers

Assessment and Testing

Psychological Testing

Psychological testing evaluation services by physician or other qualified health care professional, including integration of patient data, interpretation of standardized test results and clinical data, clinical decision making, treatment planning and report, and interactive feedback to the patient, family member(s) or caregiver(s), when performed; first hour

+ 96131 each additional hour (List separately in addition to code 96130)

Psychological or neuropsychological test administration and scoring by physician or other qualified health care professional, two or more tests, any method; first 30 minutes

+ 96137 each additional 30 minutes (List separately in addition to 96136)

Psychological or neuropsychological test administration, with single automated, standardized instrument via electronic platform, with automated result only

Assessment of Aphasia

Assessment of aphasia (includes assessment of expressive and receptive speech and language function, language comprehension, speech production ability, reading, spelling, writing, e.g., Boston Diagnostic Aphasia Examination) with interpretation and report, per hour

Emotional/Behavioral Assessment

Brief emotional/behavioral assessment (eg, depression inventory, attention-deficit/hyperactivity disorder [ADHD] scale), with scoring and documentation, per standardized instrument

Other Qualified Nonphysician Healthcare Professional Services

CPT defines a qualified nonphysician health care professional is a professional who may independently report services but may not report the physician or other qualified health care professional E/M services. These include but not limited to speech-language pathologists, physical therapists, occupational therapists, social workers, or dietitians.
**Medical Team Conference**

**99366**  Medical team conference with interdisciplinary team of healthcare professionals, face-to-face with patient and/or family, 30 minutes or more, participation by a nonphysician qualified healthcare professional

**99368**  Medical team conference with interdisciplinary team of healthcare professionals, patient and/or family not present, 30 minutes or more, participation by a nonphysician qualified healthcare professional

**Telephone Assessment: Nonphysician Healthcare Professional**

**98966**  Telephone assessment and management service provided by a qualified nonphysician healthcare professional to an established patient, parent or guardian not originating from a related assessment and management service provided within the previous seven days nor leading to an assessment and management service or procedure within the next 24 hours or soonest available appointment; 5-10 minutes of medical discussion

**98967**  11-20 minutes of medical discussion

**98968**  21-30 minutes of medical discussion

**Online Digital Evaluation and Management Service**
Refer to codes **99421-99423** for more details.

The following codes are reported by nonphysician providers who may independently bill such as physical therapists and psychologists, but are not reported for clinical staff (eg, RN) unless noted in writing by your payer.

**98970**  Qualified nonphysician health care professional online digital evaluation and management service, for an established patient, for up to 7 days, cumulative time during the 7 days; 5-10 minutes

**98971**  11-20 minutes

**98972**  21 or more minutes

**Health Behavior Assessment and Intervention**

**96156**  Health behavior assessment, or re-assessment (ie, health-focused clinical interview, behavioral observations, clinical decision making)

**96158**  Health behavior intervention (HBI), individual, face-to-face; initial 30 minutes

**96159**  each additional 15 minutes (Report with 96158)

**96164**  HBI, group (2 or more patients), face-to-face; initial 30 minutes

**96165**  each additional 15 minutes (Report with 96164)

**96167**  HBI, family (with the patient present), face-to-face; initial 30 minutes

**96168**  each additional 15 minutes (Report with 96167)

**96170**  HBI, family (without the patient present), face-to-face; initial 30 minutes

**96171**  each additional 15 minutes (Report with 96170)

*Report the family HBI codes only when the intervention is centered around the family. Do not report if the parent is present because of the age of the patient, but they not involved in the intervention. Refer to the individual or group codes instead.*

+ Codes are add-on codes, meaning they are reported separately in addition to the appropriate code for the service provided
* Indicates CPT allows as a telemedicine service

Prolonged Clinical Staff Services with Physician or Other Qualified Health Care Professional Supervision

Codes 99415, 99416 are used when a prolonged E/M service is provided in the office or outpatient setting that involves prolonged clinical staff face-to-face time beyond the typical face-to-face time of the E/M service, as stated in the code description.

+ 99415 Prolonged clinical staff service (the service beyond the typical service time) during an evaluation and management service in the office or outpatient setting, direct patient contact with physician supervision; first hour
+ 99416 each additional 30 minutes

Codes 99415-99416
- Must always be reported in addition to an appropriate office/outpatient E/M service (ie, 99201-99215)
- Require that the physician or qualified health care professional is present to provide direct supervision of the clinical staff.
- Are used to report the total duration of face-to-face time spent by clinical staff on a given date providing prolonged services, even if the time spent by the clinical staff on that date is not continuous.
- Are not reported for time spent performing separately reported services other than the E/M service is not counted toward the prolonged services time.
- Requires a minimum of 45 minutes spent beyond the typical time of the E/M service code being reported. May require that the clinical staff spend more time if the physician does not meet the time criteria of the E/M service being reported
- May not be reported in addition to 99354 or 99355.

[B]Miscellaneous Services
99071 Educational supplies, such as books, tapes or pamphlets, provided by the physician for the patient’s education at cost to the physician

International Classification of Diseases, 10th Revision, Clinical Modification (ICD-10-CM) Codes
- Use as many diagnosis codes that apply to document the patient’s complexity and report the patient’s symptoms and/or adverse environmental circumstances.
- Once a definitive diagnosis is established, report the appropriate definitive diagnosis code(s) as the primary code, plus any other symptoms that the patient is exhibiting as secondary diagnoses that are not part of the usual disease course or are considered incidental.

Anxiety Related Disorders
F06.4 Anxiety disorder due to known physiological condition
F30.8 Other manic episodes
F39 Unspecified mood [affective] disorder
F40.00 Agoraphobia, unspecified
F40.01 Agoraphobia with panic disorder
F40.02 Agoraphobia without panic disorder
F40.10 Social phobia, unspecified
F40.11 Social phobia, generalized
F40.8 Phobic anxiety disorders, other (phobic anxiety disorder of childhood)
F40.9 Phobic anxiety disorder, unspecified
F41.0 Panic disorder [episodic paroxysmal anxiety] without agoraphobia (panic attack)

+ Codes are add-on codes, meaning they are reported separately in addition to the appropriate code for the service provided
* Indicates CPT allows as a telemedicine service
Codes are add-on codes, meaning they are reported separately in addition to the appropriate code for the service provided

* Indicates CPT allows as a telemedicine service

### Substance Induced Anxiety Disorders

- **F10.280** Alcohol dependence with alcohol-induced anxiety disorder
- **F10.980** Alcohol use, unspecified with alcohol-induced anxiety disorder
- **F12.180** Cannabis abuse with cannabis-induced anxiety disorder
- **F12.280** Cannabis dependence with cannabis-induced anxiety disorder
- **F12.980** Cannabis use, unspecified with anxiety disorder
- **F13.180** Sedative, hypnotic or anxiolytic abuse with sedative, hypnotic or anxiolytic-induced anxiety disorder
- **F13.280** Sedative, hypnotic or anxiolytic dependence with sedative, hypnotic or anxiolytic-induced anxiety disorder
- **F13.980** Sedative, hypnotic or anxiolytic use, unspecified with sedative, hypnotic or anxiolytic-induced anxiety disorder
- **F14.180** Cocaine abuse with cocaine-induced anxiety disorder
- **F14.280** Cocaine dependence with cocaine-induced anxiety disorder
- **F14.980** Cocaine use, unspecified with cocaine-induced anxiety disorder
- **F15.180** Other stimulant abuse with stimulant-induced anxiety disorder
- **F15.280** Other stimulant dependence with stimulant-induced anxiety disorder
- **F16.180** Hallucinogen abuse with hallucinogen-induced anxiety disorder
- **F16.280** Hallucinogen dependence with hallucinogen-induced anxiety disorder
- **F16.980** Hallucinogen use, unspecified with hallucinogen-induced anxiety disorder
- **F18.180** Inhalant abuse with inhalant-induced anxiety disorder
- **F18.280** Inhalant dependence with inhalant-induced anxiety disorder
- **F18.980** Inhalant use, unspecified with inhalant-induced anxiety disorder
- **F19.280** Other psychoactive substance dependence with psychoactive substance-induced anxiety disorder
- **F19.980** Other psychoactive substance use, unspecified with psychoactive substance-induced anxiety disorder

### Depressive Disorders

- **F34.1** Dysthymic disorder (depressive personality disorder, dysthymia neurotic depression)

### Feeding and Eating Disorders/Elimination Disorders

- **F50.89** Eating disorders, other (psychogenic vomiting)
- **F50.9** Eating disorder, unspecified
- **F98.0** Enuresis not due to a substance or known physiological condition
- **F98.1** Encopresis not due to a substance or known physiological condition
- **F98.3** Pica (infancy or childhood)

### Impulse Disorders

- **F63.9** Impulse disorder, unspecified

### Neurodevelopmental Disorders

- **F70** Mild intellectual disabilities
- **F71** Moderate intellectual disabilities
- **F72** Severe intellectual disabilities
Codes are add-on codes, meaning they are reported separately in addition to the appropriate code for the service provided.

Indicates CPT allows as a telemedicine service.

Profound intellectual disabilities  
Unspecified intellectual disabilities  
Speech and language developmental delay due to hearing loss (code also hearing loss)  
Other developmental disorders of speech and language  
Developmental disorder of speech and language, unspecified  
Transient tic disorder  
Chronic motor or vocal tic disorder  
Tourette’s disorder  
Tic disorder, unspecified

Obsessive-Compulsive and Related Disorders
- Trichotillomania/hair plucking  
- Impulse disorder, unspecified  
- Other specified behavioral and emotional disorders with onset usually occurring in childhood and adolescence (nail-biting, nose-picking, thumb-sucking)

Somatoform Disorders
- Pain disorder exclusively related to psychological factors  
- Pain disorder with related psychological factors (code also associated acute or chronic pain (G89.-))  
- Other somatoform disorders (psychogenic hyperventilation, teeth grinding)

Trauma and Stressor-Related Disorders
- Acute stress reaction  
- Adjustment disorder, unspecified  
- Adjustment disorder with anxiety  
- Adjustment disorder with mixed anxiety and depressed mood  
- Adjustment disorder with other symptoms  
- Other reactions to severe stress  
- Reaction to severe stress, unspecified

Substance-Related and Addictive Disorders:
If a provider documents multiple patterns of use, only one should be reported. Use the following hierarchy: use–abuse–dependence (eg, if use and dependence are documented, only code for dependence).

When a minus symbol (-) is included in codes F10–F17, a last digit is required. Be sure to include the last digit from the following list:
- anxiety disorder
- sleep disorder
- other disorder
- unspecified disorder

Alcohol
- Alcohol abuse, uncomplicated (alcohol use disorder, mild)  
- Alcohol dependence, uncomplicated

Cannabis
- Cannabis abuse, uncomplicated (cannabis use disorder, mild)
<table>

<td>Other specified nonpsychotic mental disorders (Neurasthenia)</td>
</tr>
</tbody>
</table>

+ Codes are add-on codes, meaning they are reported separately in addition to the appropriate code for the service provided
* Indicates CPT allows as a telemedicine service

F48.9  Nonpsychotic mental disorder, unspecified
F93.8  Childhood emotional disorders, other

**Symptoms, Signs, and Ill-Defined Conditions**
Use these codes in absence of a definitive mental diagnosis or when the sign or symptom is not part of the disease course or considered incidental.

- **G44.201** Tension-type headache, unspecified, intractable
- **G44.209** Tension-type headache, unspecified, not intractable
- **G44.221** Chronic tension-type headache, intractable
- **G44.229** Chronic tension-type headache, not intractable
- **G47.9** Sleep disorder, unspecified
- **K59.00** Constipation, unspecified
- **N39.44** Nocturnal enuresis
- **R00.0** Tachycardia, unspecified
- **R03.0** Elevated blood-pressure reading, without diagnosis of hypertension
- **R06.02** Shortness of breath
- **R06.4** Hyperventilation
- **R07.9** Chest pain, unspecified
- **R10.0** Acute abdomen pain
- **R11.0** Nausea
- **R11.11** Vomiting without nausea
- **R11.2** Nausea with vomiting, unspecified
- **R12** Heartburn
- **R14.1** Gas pain
- **R14.2** Eructation
- **R14.3** Flatulence
- **R19.7** Diarrhea, unspecified
- **R19.8** Other specified symptoms and signs involving the digestive system and abdomen
- **R45.0** Nervousness
- **R45.82** Worries
- **R45.83** Excessive crying of child, adolescent or adult
- **R45.89** Other symptoms and signs involving emotional state
- **R51** Headache
- **R63.3** Feeding difficulties
- **R63.4** Abnormal weight loss
- **R63.5** Abnormal weight gain
- **R68.89** Other general symptoms and signs
- **T56.0X1** Toxic effect of lead and its compounds, accidental (unintentional), initial encounter (requires a 7th digit –refer to the ICD manual)

**Z Codes**
Z codes represent reasons for encounters. Categories Z00–Z99 are provided for occasions when circumstances other than a disease, injury, or external cause classifiable to categories A00–Y89 are recorded as ‘diagnoses’ or ‘problems’. This can arise in 2 main ways.

(a) When a person who may or may not be sick encounters the health services for some specific purpose, such as to receive limited care or service for a current condition, to donate an organ or tissue, to receive prophylactic vaccination
(immunization), or to discuss a problem is in itself not a disease or injury.
(b) When some circumstance or problem is present which influences the person's health status but is not in itself a current illness or injury.
(c) When a social determinant of health is identified during an encounter and it is either addressed or shown to complicate the encounter, it should be coded.

<table>
<thead>
<tr>
