Welcome to the AAP ECHO Superhub forum!

The AAP Project ECHO (Extension for Community Healthcare Outcomes) is pleased to offer pediatric-specific AAP ECHO Superhub-related activities, resources, updates, and more.

In The News

With support from the Maternal Child Health Bureau, the AAP trained the Strategic Approaches to Improving Access to Quality Health Care for Children and Youth with Epilepsy grantees on July 12-13, 2017 in the ECHO model™. The newly trained grantee includes:

- Boston Medical Center
- Children’s Hospital of Philadelphia
- Cleveland Clinic
- Michigan Department of Health and Human Services
- University of Michigan

The grantees’ activities surround projects to improve access to coordinated and comprehensive quality care for children and youth with epilepsy (CYE) and will explore ways to integrate the model into existing activities to enhance their goals and objectives.
Current ECHOs

AAP Project ECHO Zika
