American Academy of Pediatrics
Section on Infectious Diseases
S. Michael Marcy Visiting Professor Program

Faculty List

John Bradley, MD, FAAP
Rady Children's Hospital/UCSD
San Diego, California

Penelope Dennehy, MD, FAAP
Hasbro Children's Hospital
Providence, Rhode Island

Kathryn Edwards, MD, FAAP
Monroe Carell, Jr. Children’s Hospital at Vanderbilt
Nashville, Tennessee

Margaret Fisher, MD, FAAP
The Unterberg Children's Hospital at Monmouth Medical Center
Long Branch, New Jersey

Topics

- Pediatric Community Acquired Pneumonia
- MRSA
- New Antimicrobials
- How Antibiotic Dosing Drives Clinical Outcomes
- Influenza
- Pediatric Bone and Joint Infections

- Vaccines
- Vaccine Preventable Diseases
- Tick borne Diseases
- Acute Gastroenteritis in the Post-Rotavirus Vaccine Era
- MRSA

- Vaccines
- Vaccine Hesitancy
- Vaccine Safety
- Clostridium Difficile
- Pneumonia

- Vaccines
- Vaccine Preventable Diseases
- Zoonosis
- Tick borne Diseases
- Antibiotic Use and Misuse
Robert Frenck, MD, FAAP  
Cincinnati Children’s Hospital Medical Center  
Cincinnati, Ohio

- Enteric Diseases  
- Vaccines  
- MRSA  
- Norovirus  
- Pertussis  
- Human Subjects Protection (explaining the regulations, discussing IRBs, etc)

Janet Gilsdorf, MD, FAAP  
University of Michigan Medical Center  
Ann Arbor, Michigan

- Preventing *N. meningitidis* infections  
- New thoughts on *H. influenzae*  
- Asplenia and infections  
- Principles in using antibiotics  
- Combatting infectious diseases to decrease their global impact  
- Writing and publishing a scientific paper  
- Use of the laboratory in infectious diseases: EBV, GAS, MIC

Mary Anne Jackson, MD, FAAP  
Children’s Mercy Hospital  
Kansas City, Missouri

- Epidemiology of vaccine preventable infections  
- Keys to diagnosis and treatment of Kawasaki Disease  
- Judicious use of antibiotics for pediatric inpatients and outpatients  
- Consequences of antibiotic overuse (e.g., *Clostridium difficile* infection)  
- Strategies to reduce the incidence of hospital acquired infection  
- Vaccines/AAP *Red Book* update (Getting the Most Out of Your *Red Book*)

Sheldon Kaplan, MD, FAAP  
Baylor College of Medicine/Texas Children’s Hospital  
Houston, Texas

- Impact of Pneumococcal Conjugate Vaccines in children  
- *Staphylococcus aureus* infections in children  
- Fever of Unknown Origin  
- Bone and Joint infections  
- Central Nervous System Infections
Sarah Long, MD, FAAP  
St. Christopher's Hospital for Children  
Philadelphia, Pennsylvania

- Changes in Infectious Diseases over Four Decades  
- Pertussis: Persisting and Perplexing – Into Perpetuity?  
- The Year’s Top Manuscripts in Infectious Diseases for the Practitioner  
- Infant Botulism  
- AAP Red Book Vaccine Updates  
- Pediatricians’ Challenging Calls to an Infectious Diseases Specialist  
- Management of the Infant and Toddler with Fever without a Source

Dennis Murray, MD, FAAP  
Children’s Hospital of Georgia  
Augusta, GA

- Infections occurring in children in out-of-home child care  
- Evaluating children with recurrent infections  
- Community-acquired pneumonia; workup for children with recurrent pneumonia  
- HSV and enterovirus infections in the neonate  
- Telephone consultations in Pediatric ID: How to get the most information out a time-limited call

Stanford Shulman, MD, FAAP  
Ann & Robert H. Lurie Children’s Hospital  
Chicago, Illinois

- Kawasaki Disease  
- Streptococcal Infection/Rheumatic Fever

Ellen Wald, MD, FAAP  
American Family Children's Hospital  
Madison, Wisconsin

- Acute otitis media  
- Acute sinusitis  
- Urinary tract infections  
- Group A streptococcal pharyngitis and the carrier
