An Osteopathic Approach to Asthma in Pediatrics
Presented by: Meghna M. Shah, DO, MPH, FACOP, FAAP
PCOM Department of OMM

PROGRAM OBJECTIVES
1. Describe pediatric patient presentation with an asthma exacerbation.
2. Describe the classification of asthma severity in young children and adolescents.
3. Explain the treatment of an acute asthma exacerbation, including indications for hospitalization.
4. Demonstrate an osteopathic structural exam for a child with asthma, and describe common findings.
5. Demonstrate rib raising (seated and supine) and explain use.
