Texas Medicaid & CHIP: Covering Texas’ Children

In large part thanks to Medicaid and the Children’s Health Insurance Program (CHIP), 91% of Texas children have health coverage. Our most vulnerable families count on these programs to help their children grow into healthy, productive adults.

**BUILT TO HELP CHILDREN**

Medicaid and CHIP guarantee children the services they need to grow up healthy and thrive:

- Check-ups
- Dental care
- Immunizations
- Prescriptions
- Health screenings

**79%** of Medicaid and CHIP enrollees are children.

**COVERING CHILDREN WHO NEED IT MOST**

In Texas, Medicaid and CHIP cover:

- **47%** of infants, toddlers and preschoolers
- **49%** of children with disabilities or special needs like diabetes and asthma
- **77%** of children who live at or near poverty
- **100%** of children in foster care

**LONG-TERM BENEFITS FOR TEXAS**

Children with health insurance are more likely to succeed in school and in life. Children enrolled in Medicaid miss fewer school days, perform better in school, are more likely to graduate high school and go to college, earn higher wages and pay higher taxes as adults.

We must keep Medicaid and CHIP strong for Texas and our children. Changes or federal funding cuts that threaten coverage for children are a step in the wrong direction.
