West Virginia Medicaid & CHIP: Covering West Virginia’s Children

In large part thanks to Medicaid and the Children’s Health Insurance Program (CHIP), 98% of West Virginia children have health coverage. Our most vulnerable families count on these programs to help their children grow into healthy, productive adults.

**LONG-TERM BENEFITS FOR WEST VIRGINIA**

Children with health insurance are more likely to succeed in school and in life. Children enrolled in Medicaid miss fewer school days, perform better in school, are more likely to graduate high school and go to college, earn higher wages and pay higher taxes as adults.

**COVERING CHILDREN WHO NEED IT MOST**

In West Virginia, Medicaid and CHIP cover:

- **55%** of infants, toddlers and preschoolers
- **55%** of children with disabilities or special needs like diabetes and asthma
- **88%** of children who live at or near poverty
- **100%** of children in foster care

**BUILT TO HELP CHILDREN**

Medicaid and CHIP guarantee children the services they need to grow up healthy and thrive:

- Check-ups
- Dental care
- Immunizations
- Prescriptions
- Health screenings

**40%** of Medicaid and CHIP enrollees are children.

We must keep Medicaid and CHIP strong for West Virginia and our children. Changes or federal funding cuts that threaten coverage for children are a step in the wrong direction.
