EVMS/CHKD FACULTY FOCUS GROUP QUESTIONS

1) What does the term 'Public Health' mean to you? 
PROMPT: “Do you think of public health as more relevant for low income families?”

2) What community/school activities do you engage in as a physician/parent, etc?

As part of the curriculum, we would like to introduce public health principles throughout each subspecialty rotation.

3) For your XXX subspecialty rotation, what topics/principles would you like to introduce and expose the residents to as part of the total care of the patient?

3a) For instance, Do you find in your practice that there are things you would like to know about the child’s family, home, or community that would help with their treatment?

4) How would you teach these topics, ie. didactic, reading, experiential?

5) How can we help??
