**MISSION:** Support pediatric trainees in personal and professional development. To do this, SOMSRFT will serve as an advocate for pediatric trainees, facilitate leadership development in the Section, and educate and engage Section members in advocating for infant, child, adolescent, and young adult health.

**VISION:**
- Pediatric trainees have access to and use resources to support work-life balance, finances, and well being
- Pediatric trainees are optimally prepared to seek and obtain education and career opportunities
- Pediatric trainees are trained and active advocates for infants, children, adolescents, and young adults

**GOALS:**

**Work/Life Balance:**
- The Section is a centralized resource on financial planning for medical students, residents, and fellowship trainees.
- The Section is seen as a resource for work/life questions and advice.

**Section benefits/infrastructure:**
- The Section fosters mentorship with members and Academy leaders.
- The Section offers opportunities for members to present research.
- The Section/YoungPeds Network is seen as a centralized site for access to professional and personal resources.
- The Section is a place to network on education, career, and leadership guidance.
- The Section is seen as a professional home for fellowship trainees.
- The Section fosters the professional development of student pediatricians and continues to serve as their professional home.

**Guidance to AAP in technology development:**
- The Section is seen as a resource to the Academy on technology-related initiatives.
- The Section is seen as a resource to provide social media input and/or guidance.

**YPConnection Redesign:**
- YPConnection is a resource utilized by Section members.

**Advocacy Campaign:**
- Section members are well versed on advocacy and what the Academy can do to assist with advocacy training and efforts.
