2007 AAP AWARD WINNERS

Elizabeth M. Leistikow Lifetime Achievement Award

(Section on Epidemiology)

Recognizes section members who have a track record of accomplishments in teaching, administration and/or advocacy of evidence-based pediatrics over a period of years and who have shown career leadership in promoting evidence-based methods to improve pediatric care. The accomplishments could be in a variety of settings, including academic, practice, managed care or other organizational leadership.

Virginia Moyer, M.D., M.P.H., FAAP

Dr. Moyer is professor of pediatrics and chief of academic general pediatrics at Baylor College of Medicine and Texas Children’s Hospital. She graduated from Baylor, trained in pediatrics at Children’s National Medical Center in Washington, D.C., and obtained her M.P.H. from University of Texas. Her interests include teaching clinical epidemiology and studying the use of diagnostic tests in clinical care. She is a member of the Evidence-Based Medicine Working Group and the AAP Section on Epidemiology executive committee. Editor-in-chief of Evidence Based Pediatrics and Child Health, she also sits on the editorial boards of Pediatrics and AAP Grand Rounds.
