Elizabeth M. Leistikow Award for Leadership in the Promotion of Evidence Based Pediatrics

(Section on Epidemiology)

Recognizes career leadership in promoting evidence-based methods to improve pediatric care.

Thomas B. Newman, M.D., M.P.H., FAAP

Dr. Newman is professor of epidemiology, biostatistics and pediatrics at the University of California, San Francisco School of Medicine, where he also is chief of the Division of Clinical Epidemiology. He has published research on cholesterol screening, the effect of the military draft on subsequent mortality, infant safety on airplanes, jaundice and urinary tract infections. Dr. Newman co-authored the textbooks *Designing Clinical Research* and *Evidence-Based Diagnosis*, and has contributed to AAP guidelines. He has served on the Food and Drug Administration’s Pediatric Advisory Committee, the AAP Section on Epidemiology Executive Committee and the AAP Committee on Quality Improvement and Management.
