2008 AAP AWARD WINNERS

Outstanding Achievement Award
(Council on Community Pediatrics and the Section on Epidemiology)

Recognizes pediatricians who have made outstanding contributions toward advocating for children and child health in the community through the effective use of epidemiologic information.

Katherine A. Poehling, M.D., M.P.H., FAAP

Dr. Poehling completed medical school at Wake Forest University, pediatric residency at Baylor College of Medicine and fellowship with a master’s of public health at Vanderbilt University. Her research focuses on the epidemiology of respiratory infections, particularly pneumococcus and influenza virus, and the impact of vaccine. Her influenza research was performed in collaboration with the New Vaccine Surveillance Network, which includes pediatric, infectious disease and epidemiology researchers from the Centers for Disease Control and Prevention, Cincinnati Children’s Hospital, University of Rochester and Vanderbilt University. Dr. Poehling is associate professor of pediatrics and epidemiology at Wake Forest University.
