The Board of Directors of the American Academy of Pediatrics has approved unrestricted funding from Friends of Children Fund totaling $7,401,185 since 1991. Donations support the advancement of pediatrics and help the Academy continue to meet the needs of children through education, research and advocacy programs.

**Fiscal Year 2011**
The AAP Board of Directors approved 17 grants totaling $551,151.

**Task Force on Foster Care:** The TFOFC is developing and implementing initiatives to improve the health and well-being of children and youth in foster care. New resources will be designed to facilitate change in the office, in the community, and at the system level.
Grant amount: $104,205 (5th year)

**Healthy People 2010/2020 Grant Program for Chapters:** Funds will provide chapters with financial support to develop and implement projects that will improve the health and welfare of children as related to the Healthy People 2010/2020 objectives. In the past, the focus was on obesity/physical fitness, and early brain and child development.
Grant amount: $106,369

**Enhanced Oral History of Minority Pediatricians:** Funds will be used to gather historical data on the experiences of minority pediatricians, as well as give greater diversification and depth to the history of the profession. Transcripts of interviews conducted will be available in the Pediatric History Center, or on the Member Center of the AAP website.
Grant amount: $12,000

**Resident Travel Grants to the 2009 Annual Meeting:** Funds will provide grants to send 100 residents to the AAP Annual Meeting, and to participate in the “Resident Annual Assembly”. This program provides residents with non-traditional training in career development, community advocacy, legislative advocacy, international child health, subspecialty and academic opportunities, and leadership and networking skills.
Grant amount: $40,000
**Resident to Candidate Bridge Packet:**
This program will provide third year graduating residents with communication regarding benefits and involvement opportunities in order to transition them from residents to candidate members.
Grant amount: $10,000

**Chapter Outreach Grants for Medical Students, Residents and Young Physicians:**
This program will provide funding for new outreach to stimulate medical student, resident and young physician activity and involvement in their chapters.

- Chapter Outreach Grants for Medical Students - Grant amount: $4,800
- Chapter Outreach Grants for Residents - Grant amount: $9,600
- Chapter Outreach Grants for Young Physicians - Grant amount: $9,600

**Enhanced Quality Improvement:** This program will improve the quality of care for children and families by ensuring AAP policy lends itself to easier and more efficient incorporation into clinical practice. The program will provide resources to expand the number of statements or guidelines that would benefit from the Partnership for Policy Implementation process.
Grant amount: $81,508

**Integration of Patient Safety into Quality Improvement Agenda:** Funds will be used to raise awareness of patient safety issues and educate members, patients, and families of strategies to improve care. It will provide advocacy in federal, local, and AAP policy to reduce errors.
Grant amount: $45,000

**Advocacy Day Training for Residents:** Funds will be used to hold two Resident Advocacy Days in Washington, DC and accommodate 40-50 residents from key congressional districts for each training day. Participants will learn about AAP federal legislative issues and make visits to their congressional delegations to persuade them to help our cause.
Grant amount: $12,000

**Legislative Conference Resident Scholarship:** Funds will be used for partial scholarships for residents to attend the Legislative Conference. The Legislative Conference instills knowledge of the state and federal legislative process, develops advocacy skills and introduces strategies and techniques for utilizing the media.
Grant amount: $3,300

**PEDS Course:** The course will conduct the Pediatric Education in Disasters (PEDs) as a train-the-trainer course in needed communities. The program was introduced in four countries last year and was very well received.
Grant amount: $33,810 per year for three years
**Legislative Conference Young Physicians Scholarships:** Funds will be used for partial scholarships for young physicians to attend the Legislative Conference. The Legislative Conference instills knowledge of the state and federal legislative process, develops advocacy skills and introduces strategies and techniques for utilizing the media. 
Grant amount: $3,300

**International Elective Database:** Funds will be used to provide seed money to develop a centralized database of international electives for residency programs to utilize. 
Grant amount: $10,000

**Bright Futures Toolkit to Residents in Pediatric Care Online:** Funds will support the distribution of the Bright Futures Toolkit Guidelines for Health Supervision of Infants, Children, and Adolescents to AAP residents through a point-of-care version of the toolkit for PCO. 
Grant amount: $46,500

**Bright Futures Continuity Clinic Pilot Project:** The Bright Futures Continuity Clinic Pilot Project focuses on obtaining measurable outcomes (e.g., increase in developmental screening, identification of children with special health care needs) using quality improvement methodology with four continuity clinics. This project highlights the benefits of implementing the Bright Futures Guidelines, Toolkit, and other AAP materials. 
Grant amount: $48,230

### Fiscal Year 2010

The AAP Board of Directors approved 13 grants totaling $453,877.

**Task Force on Foster Care:** The TFOFC is developing and implementing initiatives to improve the health and well-being of children and youth in foster care. New resources will be designed to facilitate change in the office, in the community, and at the system level. 
Grant amount: $104,205 (4th year)

**Healthy People 2010/2020 Grant Program for Chapters:** Funds will provide chapters with financial support to develop and implement projects that will improve the health and welfare of children as related to the Healthy People 2010/2020 objectives. In the past, the focus was on obesity/physical fitness, and early brain and child development. 
Grant amount: $106,369

**Enhanced Oral History of Minority Pediatricians:** Funds will be used to gather historical data on the experiences of minority pediatricians, as well as give greater diversification and depth to the history of the profession. Transcripts of interviews conducted will be available in the Pediatric History Center, or on the Member Center of the AAP website. 
Grant amount: $12,000
Resident Travel Grants to the 2009 Annual Meeting: Funds will provide grants to send 100 residents to the AAP Annual Meeting, and to participate in the “Resident Annual Assembly”. This program provides residents with non-traditional training in career development, community advocacy, legislative advocacy, international child health, subspecialty and academic opportunities, and leadership and networking skills. Grant amount: $50,000

Resident to Candidate Bridge Packet: This program will provide third year graduating residents with communication regarding benefits and involvement opportunities in order to transition them from residents to candidate members. Grant amount: $5,000

Chapter Outreach Grants for Medical Students, Residents and Young Physicians: This program will provide funding for new outreach to stimulate medical student, resident and young physician activity and involvement in their chapters.

  - Chapter Outreach Grants for Medical Students - Grant amount: $3,000
  - Chapter Outreach Grants for Residents - Grant amount: $3,500
  - Chapter Outreach Grants for Young Physicians - Grant amount: $3,500

Redesign Health, Mental Health and Safety Guidelines: Grant amount: $13,500

Enhanced Quality Improvement: This program will improve the quality of care for children and families by ensuring AAP policy lends itself to easier and more efficient incorporation into clinical practice. The program will provide resources to expand the number of statements or guidelines that would benefit from the Partnership for Policy Implementation process. Grant amount: $87,150

Integration of Patient Safety into Quality Improvement Agenda: Funds will be used to raise awareness of patient safety issues and educate members, patients, and families of strategies to improve care. It will provide advocacy in federal, local, and AAP policy to reduce errors. Grant amount: $47,250

Advocacy Day Training at NCE: Funds will be used to hold two Advocacy training Days at NCE in Washington, DC and accommodate 40-50 participants from key congressional districts for each training day. Participants will learn about AAP federal legislative issues and make visits to their congressional delegations to persuade them to help our cause. Grant amount: $8,000
Support AAP 5-Year Review of the Medicare Resource-Based Relative Value Scale: Funds will be used to review the new Medicare RBRVS and create tools like a conversion spreadsheet for calculating Medicare payment rates for services. This will help pediatric practices adept to the new system and stay healthy and strong. Grant amount: $10,000

Fiscal Year 2009

The AAP Board of Directors approved 18 grants totaling $695,578.

Task Force on Foster Care: The TFOFC is developing and implementing initiatives to improve the health and well-being of children and youth in foster care. New resources will be designed to facilitate change in the office, in the community, and at the system level. Grant amount: $104,205 (3rd year)

Healthy People 2010 Grant Program for Chapters: Funds will provide chapters with financial support to develop and implement projects that will improve the health and welfare of children as related to the Healthy People 2010 objectives. In the past, the focus was on obesity/physical fitness, mental health, injury/violence prevention, and oral health. Grant amount: $106,369

Chapter Maintenance of Certification Network: This program will engage participating chapters in the planning and development of a quality improvement program package on asthma. Participating chapters will attend educational sessions on building infrastructure, gaining member trust and motivating practices to be involved in quality improvement efforts. Grant amount: $74,150

Health Disparities Resource Kit: Funds will be used to assist practicing pediatricians in strengthening skills and office practices to address determinants of child health disparities. New resources will assist pediatricians and their staff in providing culturally effective individualized care, understanding and monitoring the disparities that exist in their communities, addressing the root causes of those disparities, and creating a medical home environment that engenders culturally effective care to promote child health equity. Grant amount: $36,800

Oral History of Minority Pediatricians: Funds will be used to gather historical data on the experiences of minority pediatricians, as well as give greater diversification and depth to the history of the profession. Transcripts of interviews conducted will be available in the Pediatric History Center, or on the Member Center of the AAP website. Grant amount: $9,800
Enhancement of the online version of the *Health, Mental Health and Safety Guidelines for Schools:* Funding will be used to redesign the *Health, Mental Health and Safety Guidelines for Schools* website to provide easier access, more timely updates, and enhanced website support throughout the life of the guidelines.
Grant amount: $13,500

Enhance Practice Management Online Site: Funds will be used to identify “key content” of the PMO to ensure quick, easy access to the information that provides a comprehensive overview of a practice management-related topic. The “key content” feature will involve in-depth changes to the PMO site design, including enhancement to each of the topic area pages and taxonomies.
Grant amount: $10,000

Resident Travel Grants to the 2008 Annual Meeting: Funds will provide grants to send 100 residents to the AAP Annual Meeting, and to participate in the “Resident Annual Assembly”. This program provides residents with non-traditional training in career development, community advocacy, legislative advocacy, international child health, subspecialty and academic opportunities, and leadership and networking skills.
Grant amount: $50,000

Resident Initiative Fund: This program introduces residents to the AAP strategic plan by allowing them to create local advocacy projects to address one of the AAP child health priorities.
Grant amount: $20,000

Advocacy Day Training for Residents: Funds will be used to hold two Resident Advocacy Days in Washington, DC and accommodate 40-50 residents from key congressional districts for each training day. Participants will learn about AAP federal legislative issues and make visits to their congressional delegations to persuade them to help our cause.
Grant amount: $10,000

Legislative Conference Resident Scholarship: Funds will be used for partial scholarships for residents to attend the Legislative Conference. The Legislative Conference instills knowledge of the state and federal legislative process, develops advocacy skills and introduces strategies and techniques for utilizing the media.
Grant amount: $3,850

NCE Reception for Key Contacts: The Committee on Federal Government Affairs will host a reception to honor the AAP key contact participants attending the 2008 NCE.
Grant amount: $7,800
Mental Health Promotional Campaign: Funds will be used to promote the benefits of a child receiving mental health treatment from a pediatrician or in collaboration with a mental health specialist.
Grant amount: $50,000

Connected Kids for Continuity Clinics: Funds will be used to disseminate copies of CD-ROMs containing Connected Kids materials to residents and continuity clinics. Connected Kids provides pediatricians with guidance and patient-oriented materials to take an asset-based approach to violence prevention from birth through 21 years of age. The program includes 21 Connected Kids handouts for parents and patients. Some of the important topics covered are: Bullying, Discipline, Interpersonal Skills, Parenting, Suicide, and Television Violence.
Grant amount: $21,104

Advancing Quality Improvement: This program will improve the quality of care for children and families by ensuring AAP policy lends itself to easier and more efficient incorporation into clinical practice. The program will provide resources to expand the number of statements or guidelines that would benefit from the Partnership for Policy Implementation process.
Grant amount: $83,000

Integration of Patient Safety: Funds will be used to raise awareness of patient safety issues and educate members, patients, and families of strategies to improve care. It will provide advocacy in federal, local, and AAP policy to reduce errors.
Grant amount: $45,000

Chapter Outreach Grants for Medical Students, Residents and Young Physicians:
This program will provide funding for new outreach to stimulate medical student, resident and young physician activity and involvement in their chapters.

  Chapter Outreach Grants for Medical Students - Grant amount: $10,000
  Chapter Outreach Grants for Residents - Grant amount: $15,000
  Chapter Outreach Grants for Young Physicians - Grant amount: $15,000

Resident to Candidate Bridge Packet: This program will provide third year graduating residents with communication regarding benefits and involvement opportunities in order to transition them from residents to candidate members.
Grant amount: $10,000
Fiscal Year 2008

The AAP Board of Directors approved six grants totaling $460,046.

**Task Force on Foster Care:** This Task Force will work to improve the health and well-being of children in foster care by developing tools, strategies and educational materials to assist pediatricians and their multidisciplinary colleagues in providing optimal care for these children in their practices.  
Grant amount: $101,012 (2nd year)

**Pediatric Practice Management On-Line Project:** Additional funding for this program will develop a pediatric practice management resource center which will house all of the best pediatric practice management information, tools, and resources for pediatricians and their office staff in one easily accessible Web site (practice.aap.org).  
Grant amount: Additional funding up to $70,000

**Survey of Socioeconomics of Pediatric Practice:** The primary objective of this study is to gather data to build a reference tool that supports decision-making by pediatric practices to improve operations and boost revenue.  
Grant amount: $70,694

**Healthy People 2010 Grant Program for Chapters:** Funds will provide chapters with financial support to develop and implement projects that improve the health and welfare of children as related to the Healthy People 2010 objectives.  
Grant amount: $106,370

**Conversion of Bright Futures to PDA for First Year Residents:** Funds will support the development, production and distribution of a PDA version of the Bright Futures Guidelines for Health Supervision of Infants, Children, and Adolescents to AAP residents.  
Grant amount: $61,970

**Chapter Young Physician Outreach Grant Program:** This program will provide Chapters with the opportunity to apply for seed funds to stimulate medical student, resident and young physician activity and involvement in their chapters.  
Grant amount: $50,000
Fiscal Year 2007

The AAP Board of Directors approved eight grants totaling $734,541.

**Distribution of Caring for Your Child, 0-4 to the Navy for use in gift packs for new mothers**  
Grant amount: $1,137

**Young Physician (YP) Recruitment and Retention Program:** The purpose of this program is to address young physician recruitment and retention issues. This program uses a three-pronged approach to address this issue: augment national young physician recruitment and retention; create more value for YP’s by building a strong home through the YP Section; and create a strong grass-roots environment by encouraging chapters to stimulate connections with YP’s through new, innovative programs.  
Grant amount: $68,400

**Healthy People 2010 Grant Program for Chapters:** Funds will provide chapters with financial support to develop and implement projects that improve the health and welfare of children as related to the Healthy People 2010 objectives. In past years, topics included obesity and mental health.  
Grant amount: $106,370

**PediaLink: Improving Mental Health Care Within the Medical Home:** This program will create a new PediaLink module on primary care that will support pediatricians’ efforts to increase their patients’ access to quality care for their mental health needs.  
Grant amount: $63,978

**Logic Models Development for Assessment, Diagnosis, Referral, and Treatment of Mental Health Disorders in Infants, Children, and Adolescents:** This program will develop 3 logic models or algorithms for mental health issue assessment, diagnosis, and treatment for age ranges birth to 3 years, 4 to 11 years, and 12 to 21 years. These logic models will assist pediatricians and other primary care providers in screening, assessing, treating, and referring for mental health concerns.  
Grant amount: $154,856

**Pediatric Practice Management On-Line Project:** This program will develop a pediatric practice management resource center which will house all of the best pediatric practice management information, tools, and resources for pediatricians and their office staff in one easily accessible Web site (practice.aap.org).  
Grant amount: $200,000

**Task Force on Foster Care:** This Task Force will work to improve the health and well-being of children in foster care by developing tools, strategies and educational materials to assist pediatricians and their multidisciplinary colleagues in providing optimal care.
for these children in their practices. Grant amount: $100,000

**Distribution of Guidelines for Health Supervision III (2nd year):** Funds will support the distribution of a Personal Digital Assistant (PDA) version of the *Guidelines for Health Supervision III* to first-year residents.
Grant amount: $39,800

**Fiscal Year 2006**

The AAP Board of Directors approved thirteen grants totaling $535,690.

**CATCH Resident Funds:** This program will support pediatric residents who plan and implement community-based child health initiatives.
Grant amount: $45,000

**Integrating EHR Functionality:** This program is aimed at ensuring that the national standard-setting groups integrate AAP policy statements and evidence-based practice guidelines into electronic health record functionality.
Grant amount: $20,690

**Web Page for Resident Section:** This program will support the creation of a Resident Section Web site that will provide information about all resident programming, services, and opportunities for professional growth available through the AAP; actively poll and review visitor data to better tailor the Web site to increase usability; and incorporate the newest Web theory for organizing and structuring content.
Grant amount: $30,000

**Violence Prevention Subcommittee:** Funds will support the work of a multidisciplinary violence prevention subcommittee whose members will establish priorities, develop a comprehensive plan, and provide oversight for AAP violence prevention projects.
Grant amount: $6,350

**Health Care Disparities:** This program supports the AAP Council on Community Pediatrics’ close work with other AAP committees and sections to identify ways in which the Academy can address health care disparities and move toward equity for all children.
Grant amount: $11,900

**NCE Travel Grants:** This program will provide 170 residents, selected by their training program directors, travel grants to attend the 2005 AAP National Conference and Exhibition.
Grant amount: $51,000
**Pediatrics in the 21st Century:** This program will support the National Conference and Exhibition program: “Connecting for Children’s Sake: Integrating Physical and Mental Health in the Medical Home.” The program will examine ways pediatricians can more efficiently and effectively collaborate and connect with mental health professionals to improve patients’ medical and mental health care.
Grant amount: $115,000

**Healthy People 2010 Chapter Grants:** Funds will provide chapters with financial support to develop and implement projects that improve the health and welfare of children as related to the Healthy People 2010 objectives. In past years, topics included obesity and mental health.
Grant amount: $110,000

**Chapter/Clerkship Director Outreach:** This program will support AAP Chapters establishing partnerships with Clerkship Directors from medical schools accredited by the American Association of Medical Colleges and the American Association of Colleges of Osteopathic Medicine to reach out to medical students interested in pediatrics.
Grant amount: $14,600

**Distribution of Guidelines for Health Supervision III:** Funds will support the distribution of a Personal Digital Assistant (PDA) version of the *Guidelines for Health Supervision III* to first-year residents.
Grant amount: $39,800

**Healthy Foster Care America – Year Two:** This program will support the implementation of the action plan developed in Fiscal Year ‘05 to address the physical, developmental, and mental health care needs of children in foster care. This national program, housed at the AAP, will coordinate efforts from multiple disciplines including child welfare, family practice, social work, nursing, government, legislative and judicial fields, child psychiatry, education, advocacy organizations, and families.
Grant amount: $53,950

**Advocacy Training Day:** Resident programs now have an advocacy requirement, which has significantly increased demand for this training. This program will support 50 residents meeting on a quarterly basis with their members of Congress to promote AAP issues.
Grant amount: $27,400

**Support of International Tsunami Relief:** Funds will support relief efforts in Sri Lanka, Thailand and India in response to the tsunami disaster that struck Southeast Asia in December 2004.
Grant amount: $10,000
Fiscal Year 2005

OED approved one grant totaling $70,000

**2004 Resident NCE Travel Grant Program:** This grant supports 2004 NCE resident assembly events and travel grants.
Grant amount: $70,000

Fiscal Year 2004

The AAP Board of Directors approved eight grants totaling $624,927

**Enhanced International Access to Red Book® Online:** This grant supports the development and distribution of subscription cards containing complimentary, life-of-the-edition access to *Red Book® Online*, with the goal of further increasing the awareness of and access to *Red Book® Online* to the worldwide pediatric community.
Grant amount: $38,335

**Planning for Healthy Foster Care America:** Funds support a planning process that will produce an Action Plan for the development and implementation of an effective program to improve the health care of all children in foster care. This national program, housed at the AAP, will coordinate efforts at community, state and national levels.
Grant amount: $40,250

**Healthy People 2010 Grant Program for Chapters:** This grant will provide continued financial support to assist chapters in developing and implementing projects that improve the health and welfare of children as related to the Healthy People 2010 objectives.
Grant amount: $110,000

**The Safety Check (PROS) Study:** This grant will provide continued financial support to support the minority work for the study entitled “Randomized Controlled Trial to Prevent Child Violence”, otherwise known as the Safety Check study.
Grant amount: $30,000

**Bright Futures eQipp Module:** This grant supports the development of the Bright Futures eQipp Module for use among pediatric health care providers and the public.
Grant amount: $155,000

**2004 NCE Peds21 – Obesity:** Funds support the symposium “The New Science of Obesity” which will take place at the 2004 National Conference and Exhibition in San Francisco, CA.
Grant amount: $105,357
Chapter Component of Medical Student Program: This grant will support the newest component of the medical student outreach program, which focuses on bringing chapters and clerkships together to conduct joint activities.
Grant amount: $15,000

Practice Management: Negotiating Skills PediaLink Module: This grant will provide support to create an educational module on PediaLink that will broaden the pediatrician’s understanding of various negotiation strategies and teach them to use these new skills in dealing with managed care organizations and other health plans.
Grant amount: $130,985

Fiscal Year 2003
The AAP Board of Directors approved twelve grants totaling $759,643

PediaLink Education Module on Nutritional Assessment and Obesity: This grant will support the development of a PediaLink e-learning module on the topic of nutritional assessment and obesity.
Grant Amount: $111,650

Media Training Video: Funds support the production of a media training videotape for distribution to AAP chapters, committees and sections and for use as a follow-up “refresher” training tool.
Grant Amount: $23,000

Journal Supplement from Conference on Pediatric Measures of Health Status: This grant will assist in the development of a journal supplement based on an invitational conference on the state of the art in pediatric measures of health status. This publication will expose a wider audience to the conference findings and encourage further action in this area.
Grant Amount: $20,000

The Safety Check (PROS) Study: Funds support participation by under-resourced practices that serve minority and disadvantaged families in the PROS Randomized Controlled Trial to Prevent Child Violence (The Safety Check) Study.
Grant Amount: $30,000

Child Care Health and Safety Training for Pediatricians: This grant will support a conference that will offer pediatricians who are child care advocates and leaders in each Academy chapter and district hands-on training based on the Academy’s new child care curriculum, “The Pediatrician’s Role in Health and Safety in Child Care”.
Grant Amount: $74,358

**Resident Research Grants:** Funds support the Resident Research Grant program which enables residents to gain hands-on experience in planning and executing research projects and interpreting research findings.
Grant Amount: $85,000

**Medical Student Outreach and Pediatric Career Support Program:** This grant assists the Academy in reaching out to medical students to foster their interest in pediatrics.
Grant Amount: $50,335

**Healthy People 2010 Grant Program for Chapters:** This grant will assist Chapters in developing and implementing programs that address Healthy People 2010 objectives that relate to children and AAP priorities.
Grant Amount: $110,000

**Translation of Hearing Screening Brochure:** Funds support the Spanish translation of the Academy’s public education brochure on Universal Newborn Hearing Screening.
Grant Amount: $23,800

**NRP Instructor Orientation in El Salvador and the Dominican Republic:** This grant supports NRP instructor orientation in El Salvador and the Dominican Republic, which will help establish local perinatal health systems that will have long-term efficacy in reducing mortality and morbidity from perinatal asphyxia for a substantial proportion of infants.
Grant Amount: $166,500

**National Health Museum:** Funds will establish the Academy’s support of the National Health Museum which will be built adjacent to the National Mall in Washington, DC. The museum will serve as a source of information and inspiration and as a catalyst for interest in the field of health science and technology.
Grant Amount: $30,000

**AAP Access Retreat:** Funds support a two day “Health Policy Retreat” focusing on children’s access to health care, including re-examining ways to improve Medicaid and SCHIP.
Grant Amount: $35,000
Fiscal Year 2002

The AAP Board of Directors approved three grants totaling $171,000.

**Community Access to Child Health (CATCH) Planning Funds Grants:**
This grant supports pediatricians in planning community-based child health initiatives.
Grant Amount: $100,000

**Pediatric History Center – Cataloguing of Artifacts:** Funds support the hiring of temporary personnel to organize and inventory the collection of pediatric artifacts belonging to the Pediatric History Center.
Grant Amount: $15,000

**Actuarial Study:** This grant supports an update of the Academy’s Actuarial Study for use by Chapters to demonstrate to state legislators that providing a comprehensive insurance benefit package to children and adolescents is not cost-prohibitive.
Grant Amount: $56,000

Calendar Year 2001

The AAP Board of Directors approved nine grants totaling $478,142.

**Life Around Newborn Discharge: Pediatric Research in Office Settings (PROS) Study:** This study is gathering data on 6,000 mother-infant dyads to investigate the decision-making process around newborn discharge and its relation to outcomes in the first 6 weeks of life. These funds will enhance recruitment of minority and disadvantaged children into the study.
Grant Amount: $100,000

**Community Access to Child Health (CATCH) Planning Funds:** This grant supports pediatricians in planning community-based child health initiatives.
Grant Amount: $71,142

**Substance Abuse Manual:** A new edition of the manual is being published and distributed to AAP members.
Grant Amount: $67,500

**Guidelines to Health Supervision:** First year residents will receive complimentary copies of the guidelines.
Grant Amount: $67,500
**PROS Network Project Development**: This grant supports senior research staff to develop new, fundable, research projects. Tasks include developing study protocols, obtaining IRB approvals, conducting pilot work, and representing the Academy to external organizations.
Grant Amount: $50,000

**Periodic Survey of Fellows**: This program systematically surveys members of the Academy regarding their attitudes and practice behavior on current child health topics. This grant supports non-personnel costs of the periodic surveys.
Grant Amount: $22,000

**Functional Outcomes Project**: This grant supports and expands work in three areas: (1) disseminate existing measures for use by others in research and practice, (2) enhance the existing Child Health Survey for Asthma, and (3) address the measurement of functional status for children with ADHD.
Grant Amount: $65,000

**Assessing the Costs of Delivering Pediatric Care**: A detailed analysis of pediatric offices practice expense data is being conducted. The data will be submitted to the HCFA for use in updating specialty specific practice expenses.
Grant Amount: $15,000

**AAP/Heart to Heart NRP Training in China**: The program is in collaboration with Heart to Heart International and Sichuan Provincial Health Bureau and supports the establishment of neonatal resuscitation training centers in Sichuan Province.
Grant Amount: $20,000

### Calendar Year 2000

The AAP Board of Directors approved two grants totaling $79,000.

**Resident Travel Grants to the 2000 Annual Meeting**: These grants provided funds to each pediatric program to send a resident to the AAP Annual Meeting.
Grant Amount: $70,000

**Immunization Public Awareness Campaign**: This grants supported AAP initiatives to increase public awareness of infectious disease prevention.
Grant Amount: $9,000
Calendar Year 1999

Beginning in 1999, reporting was changed to a calendar year. The AAP Board of Directors approved nine grants totaling $442,338.

**CATCH Planning Fund Grants:** Funds support pediatricians in planning community-based child health initiatives. Grants were awarded to pediatricians to assess and document the needs of children in the community, develop collaborative partnerships for planning the initiative, and prepare for implementation of a program.

Grant Amount: $109,492

**How Families and Pediatricians Understand the Needs of Young Children: National Surveys of Pediatricians and Parents of Children ages 0-3:** The parent survey was conducted through the sampling frame of the National Immunization Survey conducted by the National Center for Health Statistics/National Immunization Program.

Grant Amount: $80,000

**Residency Scholarships and Resident Research Grants:** Funds supported financial assistance to residents and resident research grants.

Grant Amount: $65,586

**Child Health Month National Survey:** A survey was conducted on inhalant abuse, the topic of Child Health Month in October.

Grant Amount: $18,000

**Psychosocial Manual:** The AAP manual on psychosocial effects of disasters on children was translated into Spanish.

Grant Amount: $1,500

**Future of Pediatrics Education II:** The FOPE II final report was published as a supplement to Pediatrics.

Grant Amount: $50,000

**Breastfeeding Physician's Kit:** This grant supported the enhancement of the kit including the purchase, production, distribution, and translation of additional resource materials.

Grant Amount: $25,000
State Children’s Health Insurance Program (SCHIP) Activities: State level information on pediatric participation in Medicaid and SCHIP was studied to determine whether low-income children have adequate access to pediatricians. Grant Amount: $70,000

Interorganizational Council on Youth/Peer Violence: This grant supported efforts to reduce morbidity and mortality related to youth and peer violence by collaboration among organizations and agencies. Grant Amount: $22,760

Fiscal Year 1999

The AAP Board of Directors approved eight grants totaling $296,034 for the 1998/99 year.

Pediatrics 50th Anniversary Supplement: The supplement commemorating the 50th anniversary of Pediatrics contained landmark articles and commentaries from past issues, interviews of the past and present editors, and profiles of pioneering researchers and clinicians in pediatrics. Grant Amount: $68,935

Socioeconomic Survey of Pediatric Practices: The survey addressed socioeconomic patterns in pediatric care. Grant Amount: $15,955

Medical Student Outreach: This grant established a home at the Academy for medical school issues and medical students interested in pediatrics. Grant Amount: $47,130

Child Health Month: Alcohol Awareness This grant enabled the expansion of Child Health Month activities that addressed the impact of alcohol on children’s health. Grant Amount: $36,200

Annual CPT Coding Update: This grant supported the development and distribution of new and revised CPT codes. Grant Amount: $7,814

Annual State Legislation Report: A state legislative activity report on child health issues was produced and distributed to Academy leaders, child advocacy organizations and the media. Grant Amount: $10,000

SCHIP Activities: The grant supported the Academy’s program to maximize the implementation of Title XXI. The plan included (1) development and
distribution of state-specific data reports, (2) an actuarial analysis of the Academy scope of benefits, (3) enhanced policy and strategy materials, and (4) a media advocacy campaign.
Grant Amount: $100,000

**Section on Critical Care Research Grant Program:** The New Investigator Research Award was established to promote understanding of critical illness and injury in children through clinical and/or laboratory research.
Grant Amount: $10,000

### Fiscal Year 1998

The AAP Board of Directors approved ten grants totaling $300,005 for the 1997/98 year.

**State Children's Health Insurance Program (SCHIP) Evaluation Conference:** A one and one-half day conference for research and advocacy experts was held to develop an evaluation tool for implementation of their SCHIP plans.
Grant Amount: $20,000

**Section on Cardiology Research Fellowship Award:** A resident in pediatric cardiology received a fellowship to conduct research in the area of cardiovascular disease in children.
Grant Amount: $34,500

**Health Policy Research Program:** A research analyst collected, analyzed, and provided healthcare utilization data to health policy makers to encourage informed development of SCHIP plans.
Grant Amount: $38,425

**Functional Outcomes Project:** This grant secured the first of a five year plan to develop scientifically sound, condition specific functional status measures for children with chronic health problems. When finished these instruments will aid pediatricians in evaluating treatments, documenting quality of care and enhancing feedback from patients.
Grant Amount: $26,930

**Otitis Media Functional Outcomes Project:** This grant supported the field testing measure of the otitis media work group.
Grant Amount: $60,000

**The Visual Diagnosis of Child Sexual Abuse Slide Kit:** An audiovisual teaching aid was developed that assisted health practitioners in improving the identification of sexual abuse of children. This slide set and accompanying
booklet and bibliography complement the AAP Visual Diagnosis of Child Physical Abuse. Grant Amount: $30,000

**Child Health Month Substance Abuse Activities:**

This grant enabled the expansion of Child Health Month activities that addressed the impact of substance abuse on children’s health. 
Grant Amount: $20,000

**Practice Management and RBRVS Inserts in AAP News:** This grant provided for an additional managed care insert in *AAP News* on how to aid pediatricians with the latest practice management applications. 
Grant Amount: $6,600

**Breastfeeding Promotion in Pediatric Office Practices:** A breastfeeding promotion and management program was established and specifically developed for physicians practicing in pediatric office settings. 
Grant Amount for Physician’s Kit only: $33,550

**International Pediatric Education Outreach:** This grant aided the Academy’s support of international activities. It allowed AAP leaders to participate in continuing medical education programs in developing nations, bring pediatric leaders from selected nations to AAP conferences, guide establishment of a CME program across the European Union, and influence the training of pediatricians and the care provided to children worldwide. 
Grant Amount: Up to $30,000

**Fiscal Year 1997**

The AAP Board of Directors approved five grants totaling $185,300 for the 1996/97 year.

**Life Around Newborn Discharge (LAND) Study:** Pediatric Research in Office Settings (PROS) initiated this project to investigate the decision-making process around newborn discharge and its relation to outcomes in the first 6 weeks of life with a pilot test in 17 pediatric practices over one year. 
Grant Amount: Up to $100,000.

**Head Injury Functional Outcome Project:** Work on the head injury functional outcome measure began in 1993. The work group defined the scope of the condition it was addressing and drafted a preliminary measure. This grant provided funds to conduct parent focus groups and cognitive interviews to assess the utility of the draft measure with families of children who have experienced a brain injury. 
Grant Amount: Up to $30,000.
**International Pediatric Education Outreach:** The Academy’s international activities allowed AAP leaders to participate in CME programs in developing nations, guide establishment of a continuing education program across the European Union, and influence the training of pediatricians and the care provided to children worldwide. The grant also supported an exchange of resident fellows and partial travel awards to bring pediatric leaders from selected nations to Academy functions.

Grant Amount: Up to $30,000.

**AAMC National Primary Care Day:** This annual gathering brings together pediatric clerkship directors, chapter leaders, and student coordinators.

Grant Amount: $3,700.

**Corporal Punishment Conference Proceedings:** A *Pediatrics* supplement was published that examined corporal punishment and other forms of discipline and provided "state of the art" statements for all professionals involved in the care of children and adolescents.

Grant Amount: $21,600.

**Fiscal Year 1996**

The AAP Board of Directors approved six grants totaling $110,547 for the 1995/96 fiscal year.

**Anti-Tobacco Day:** On November 9, 1995, Academy pediatricians across the nation taught students about the dangers of tobacco use and the influence of advertising on children and adolescents. As part of the activities, students exchanged promotional items carrying tobacco brands or logos for AAP T-shirts bearing anti-tobacco messages.

Grant Amount: $30,000.

**Child Health Month: Violence Prevention:** This grant supported activities devoted to violence prevention with an emphasis on building interpersonal skills as the foundation for violence prevention.

Grant Amount: Up to $30,000.

**Quarterly Managed Care Inserts in AAP News:** This grant supported publication of these extremely well-developed and popular publications.

Grant Amount: $23,360.

**Survey on Minority Pediatricians:** The survey examined barriers to board certification and was a result of a recommendation of the Task Force on Minority Children's Access to Care.

Grant Amount: $16,711.
AAMC National Primary Care Day:
This annual gathering brings together pediatric clerkship directors, chapter leaders, and student coordinators.
Grant Amount: $3,700.

CATCH Survey: Pediatricians active in their communities and involved in the AAP Community Access to Child Health (CATCH) Program were studied in this survey.
Grant Amount: $6,776.

Fiscal Year 1995

The AAP Board of Directors approved five grants totaling $144,319 for the 1994/95 fiscal year.

Special Reports on Managed Care: A series of topical reports on managed care targeted to pediatricians were inserted into AAP News.
Grant Amount: $20,000.

The Functional Outcomes Project: Condition-specific functional outcome measures as a central component of the AAP Quality Improvement Initiative were developed. The measures assess patient and family function, and are critical for the collection of data necessary to prove treatment efficacy and to develop treatment parameters.
Grant Amount: $46,000.

Managed Care Brochures for Parents and Health Care Purchasers: These publications targeted two critical audiences with information necessary to understand and to effectively utilize health care provided through the managed care model.
Grant Amount: $32,500.

Resident Research Grant Program: The program fosters the development of research skills among physicians in training. Grant award of up to $2,000 were offered to sponsor resident initiated studies.
Grant Amount: $15,000.

Pediatrician Practice Pattern Surveys: The survey collected information on current pediatrician practice patterns with regard to managed care referrals for children with mental health problems and the management of febrile infants in office settings.
Grant Amount: $30,819.
Fiscal Year 1994

The AAP Board of Directors approved seven grants totaling $152,448 for the 1993/94 fiscal year.

**Tobacco Free, Breast Feeding, and Make Every Ride Safe Ride:** This grant supported a trio of programs that promoted healthy lifestyles through a network of chapter contacts.
Grant Amount: $13,928.

**Parameter Development:** Work groups developed practice parameters as part of the Academy's commitment to quality improvement.
Grant Amount: $69,110.

**Integrated Services Task Force:** The Task Force studied school-linked health services and planned a multi-disciplinary conference that brought together national organizations involved in the issue.
Grant Amount: $18,200.

**Task Force on Minority Children's Access to Pediatric Care: Final Report:** This grant funded the final report recommendations on improving the health of minority children.
Grant Amount: $13,500.

**Pediatric Career Decision Making Study:** The project examined the differences between how general practice and sub-specialty pediatric careers are selected and ultimately how to ensure an adequate supply of pediatricians to care for children.
Grant Amount: $14,273.

**Physician Workforce Ratios Project:** The project tracked child population and physician workforce distribution by county.
Grant Amount: $3,113.

**Task Force on Adolescent Assault Victim Needs:** The Task Force developed recommendations and a multi-disciplinary model protocol to address emergency care of adolescent assault victims with emphasis on follow-up and management of these youth.
Grant Amount: $20,324.
Fiscal Year 1993

The AAP Board of Directors approved three grants totaling $86,102 for the 1992/93 fiscal year.

**DSM-PC Project:** The DSM-PC developed a mental health classification system for use in primary care settings.
Grant Amount: $38,677.

**Pediatric Research in Office Settings (PROS) Network:** This grant supported the PROS Network of more than 300 pediatricians who participate in practice-based research studies, develop, test and implement projects on populations and conditions seen by general practice pediatricians.
Grant Amount: $45,000.

**International Child Health Program and Reception:** This grant supported the program and reception held during the 1992 AAP Annual Meeting.
Grant Amount: $2,425.

Fiscal Year 1992

The AAP Board of Directors approved three grants totaling $55,497 for the 1991/92 fiscal year.

**Children Our Future Campaign:** This grant supported the *Children Our Future* Campaign and the 1992 Child Health Month brochures.
Grant Amount: $20,000.

**EPSDT/Medicaid Study:** Pediatrician participation in these programs and the types of services delivered was studied.
Grant Amount: $33,097.

**International Child Health Program and Reception:** This grant supported the program and reception held during the 1991 AAP Annual Meeting.
Grant Amount: $2,400.

Fiscal Year 1991

The AAP Board of Directors approved one grant for the 1990/91 fiscal year.

**Quality Assurance Task Force:** This grant supported the development of practice guidelines to heighten the overall standard of care for children.
Grant Amount: $15,000.
