Presented by
Departments of Pediatrics,
Psychiatry and Obstetrics/Gynecology
University Hospitals Case Medical Center
Case Western Reserve University
School of Medicine

Presented by:

University Hospitals
Case Medical Center

SCHOOL OF MEDICINE
CASE WESTERN RESERVE UNIVERSITY
Overview:
Now in its 16th year, this intensive interactive course examines the key problems and priorities in disaster situations as they relate to the most vulnerable victims of disasters. This course provides a holistic multidisciplinary approach to effectively address the complex medical, psychosocial and public health challenges facing children, women and families affected by humanitarian emergencies. In addition, the importance of identifying cultural components to both population-based and clinical interventions is emphasized throughout this course. By offering a solid mix of didactic lectures and problem-based learning exercises targeted at a variety of skill levels, this course provides the preparation you need to effectively work on behalf of vulnerable populations in a disaster setting. You will leave this course inspired to learn more.

Who Should Attend:
This program is designed for pediatricians, primary care providers, NGO relief professionals and mental health professionals interested in training that targets the special needs of children, women and families during and following disasters.

Learning Objectives:
After attending this program, participants will be able to:
- Demonstrate critical thinking and problem solving skills when working in a team.
- Identify organizations most frequently involved in providing assistance in disasters and define their roles and strengths.
- Rapidly formulate a plan for epidemiologic assessment.
- Describe the role of triage in prioritizing relief efforts.
- Explain the role of adequate water and sanitation on population-based health.
- Recognize malnutrition and its consequences and plan interventions.
- List key elements of prevention and treatment for infectious disease issues in disaster settings.
- Describe developmental variations of stress reactions in children and age-appropriate interventions.
- List basic points of international humanitarian law as they apply to women and children.
- Describe personal preparation, cross-cultural communication tools and security precautions for workers.
- Discuss key points to consider when addressing conflicts in resource-poor settings.

Continuing Education
Physicians: This Live activity, 16th Management of Humanitarian Emergencies: Focus on Children, Women and Families, with a beginning date of June 3, 2013, has been reviewed and is acceptable for up to 35.00 Prescribed credit(s) by the American Academy of Family Physicians. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
AAFP Prescribed credit is accepted by the American Medical Association as equivalent to AMA PRA Category 1 Credit™ toward the AMA Physician’s Recognition Award. When applying for the AMA PRA, Prescribed credit earned must be reported as Prescribed, not as Category 1.

Psychologists: The Case Western Reserve University School of Medicine is approved by the Ohio Psychological Association-MCE Program to offer continuing education for psychologists. The Case Western Reserve University School of Medicine, 341645979, maintains responsibility for the program.

Nurses & Physician Assistants: The American Nurses Credentialing Center (ANCC) and the American Academy of Physician Assistants (AAPA) accept AAFP Prescribed credit toward recertification requirements.
