Modeled after the widely acclaimed PREP Self-Assessment®, the NeoReviewsPlus Self Assessment is a tool to help neonatologists:

- assess their knowledge strength and identify learning gaps to improve patient outcomes;
- keep current on new developments using evidence-informed medical information; and prepare for re-certification in neonatal/perinatal medicine.

NeoReviewsPlus offers rigorously peer-reviewed questions and critiques —written by neonatologists for neonatologists. These questions and critiques are mapped to the American Board of Pediatrics content specifications in neonatal/perinatal medicine. Each question includes a detailed discussion of the preferred response and clearly identifies the content specification(s) it addresses.

The NeoReviewsPlus Self-Assessment is approved by the ABP for Maintenance of Certification™ Part 2: Lifelong Learning and Assessment points.

The NeoReviewsPlus annual subscription package offers a maximum of 48 *AMA PRA Category 1 Credits*™: 24 for the self-assessment, and another 24 for completion of quizzes in NeoReviews, the American Academy of Pediatrics' online neonatology review journal.
