Welcome to Preventing and Managing Infectious Diseases in Early Education and Child Care

This course is designed for everyone who cares for babies, including health care professionals and child care providers.

Upon its completion, you will be able to:

- Recognize how infectious diseases (ID) are spread
- Identify the role of caregivers in preventing or controlling the spread of ID by hygiene, immunization, environmental controls and healthy lifestyle
- Recognize the actions involved in conducting a daily health check
- Identify the criteria for excluding an ill child from attending child care and recognize when it is not helpful

This course provides you with reliable national resources for guidance on preventing and managing infectious diseases.

Note to child care providers:

This course is approved for 3.0 contact hours. Once you have completed the course, click the **Claim Contact Hours** link on the side navigation bar to print your certificate of completion.

This online module is for educational purposes only.

The **Preventing and Managing Infectious Diseases in Early Education** online module is funded through grants from McNeil Consumer Healthcare, a subsidiary of Johnson & Johnson.
