Estimated Vaccination Coverage Among Children 19-35 Months of Age

DTaP*

States are color-coded based on the estimated vaccination coverage. The map shows the distribution of coverage across the United States, with different shades indicating the percentage of children vaccinated.

Data Source:
CDC National Immunization Survey, Q1-Q4, 2012

Estimated Vaccination Coverage

- > 95% (0)
- 91% - 95% (3)
- 86% - 90% (12)
- 80% - 85% (26)
- < 80% (10)

Note: Children in the Q1-Q4 2012 National Immunization Survey were born from January 2009 through May 2011.

* 4 or more doses of DTaP.
