2024 Pediatric Dermatology Pearls for the Pediatric Provider  
Saturday, February 10, 2024  
9 -11 AM CST

9:00 AM – 9:05 AM - Introduction/Housekeeping – Dr Teresa Wright (5 minutes)

9:05 AM – 9:25 AM - Diaper Dermatitis-Recognition of Common and Uncommon Diaper Rashes (20 min) – Dr Christina Boull

Objectives
- Recognize and understand how to treat common diaper rashes
- Identify diaper rash mimics that require medical intervention

9:25 AM – 9:50 AM - Update on Treatment Options for Acne Vulgaris (25 min) – Dr Marissa Perman

Objectives
- Briefly review pathogenesis and types of acne
- Review treatments including newer therapeutics
- Discuss how to use therapies in combination

9:50 AM – 10:05 AM - Q & A Session (15 min): Dr Kim Horii and Dr Christine Lauren

10:05 AM – 10:25 AM - Lumps and Bumps-When to Worry and What to Do (20 min) – Dr Laura Levin

Objectives
- Understand the differential diagnosis for a nonspecific lump or bump in the skin including both benign and malignant growths.
- Recognize features of the history or physical exam that may be risk factors for a more concerning lump or bump.
- Provide a framework for the initial work up and appropriate referral for the non-specific lump or bump in the children.

10:25 AM – 10:50 AM - Recognizing Commons Rashes in Patients with Skin of Color (25 min) – Dr Brandi Kenner-Bell

Objectives
- Define “skin of color” (SOC) and understand some of the structural and physiologic differences that may contribute to differences in clinical presentation and prevalence of diseases in certain populations
- Understand how common dermatologic diseases can present differently in skin of color
- Identify dermatologic diseases which are more likely to present in skin of color

10:50 AM – 11:05 AM - Q & A Session (15 min): Dr Kim Horii and Dr Christine Lauren

Course Planning Team: Kim Horii, MD, FAAP; Christine Lauren, MD, FAAP; Sheilagh Maguiness, MD, FAAP; Teresa Wright, MD, FAAP

Faculty: Laura Levin, MD; Christina Boull, MD, FAAP; Marissa Perman, MD, FAAP; Brandi Kenner-Bell, MD, FAAP
